Cuba: Culture, Society, Education, Economy, & Politics

July 9-29, 2017
$4,400 plus tuition

Learn about the history, culture, and contemporary issues affecting this fascinating island nation. Cuba is a blend of cultures - Latin American, European, and African - which creates a unique environment that students will be able to experience. Students will be exposed to an array of cultural activities and study excursions designed to encourage direct interaction with the Cuban people. We will study the rich heritage of Cuba, as reflected in its cultural, economic, and political institutions. We will learn about the island’s pre and post-revolutionary history. We will study Cuban music and dance, the education and healthcare systems, and even the rich natural environment. With Cuba on the verge of dramatic change, this frozen-in-time nation, just starting to open up, is a compelling place to study.
