TechFest Posters and Demonstrations Session

Guidelines
An entry in the posters and demonstrations session may be by an individual or group, and all posters and demonstrations must cover subject matter incorporating computer science, information technology, or engineering. Posters should not exceed 36 inches in height and 48 inches in width, and should be mounted on foam board with an adhesive (adhesive spray is highly recommended). The Department of Computer Science and Information Technology will provide adhesive spray and 36” X 48” trifold foam board poster stands to participants (while supplies last). All posters should be electronically printed; handwritten material should not be featured. Demonstrations must be accompanied by a visual component (preferably a poster). Documentation such as reports or code may be used to supplement a poster or demonstration, but such documentation should not be used as the primary visual component. During the scheduled posters and demonstrations session, at least one student per entry must be readily available to orally explain their project and answer questions for visitors. Oral presentations should not exceed five minutes for each set of visitors. Submit your poster for printing send an email to the following cs-it.posters@mail.armstrong.edu

Registration
When registering for TechFest, students will indicate whether or not they will be participating in the poster session. Final entry titles and descriptions are due to TechFest@armstrong.edu on Wednesday, April 12, 2017.

Prizes
Posters and demonstrations will be judged based on content, oral presentation, and visual presentation. Armstrong’s Center for Applied Cyber Education (CACE) will award prizes to the first place entry, second place entry, and third place entry teams of up to four members. Each winning team member will receive a voucher for CACE certifications.
