Technology Fee Expenditure

Date Issued: 04/05/2011  
Policy No.: ITS-130

Rationale

This policy defines the guidelines for the use of Technology Fee Expenditures.

Procedure Reference

Use

- Technology fee revenues shall be used primarily for the direct benefit of students to assist them in meeting the educational objectives of their academic programs.
- Technology fee revenue may be used to assure that there are sufficient campus licenses for primary productivity tools for students.
- Technology fee revenues may be used for hardware and network related expenditures that include support of general purpose laboratories available to all students and faculty.
- Technology fee revenues may be used for hardware and network related expenditures that include support classrooms and or other related learning environments.
- Technology fee revenues may be used for training of students.
- Technology revenues in some instances may be used to leverage other funds where appropriate. The use of these funds requires the signature of the Chief Information Officer of the University.
- Technology fee revenues may be used for full time staff whose job is primarily supporting student use of technology and related student staffing positions in the office of Information Technology Services.
- Technology fee revenues shall not be used for administrative software or the hardware to support administrative software.
