Welcome to Armstrong State University, Savannah’s educational treasure and one of the nation’s most engaging academic environments. We are so glad that you are here today. Please take a look at the map and match the description with the building number by each picture.
We begin our tour at **VICTOR HALL**. Named for Terry Victor, wife of alumnus and longtime supporter Irving Victor, Victor Hall houses the Office of Admissions, the Registrar, Veterans Affairs, the Bursar's Office and Financial Aid.

**GAMBLE HALL** was built in 1965 and is named for former Savannah mayor Thomas Gamble. This building is home to the Department of Languages, Literature & Philosophy; the Office of International Education; the Writing Center; the Language Lab; a computer lab; a film studies classroom; and multiple newly renovated classrooms.
Named for Herschel B. Jenkins, owner and publisher of the Savannah News-Press and supporter of the university, JENKINS HALL is where thousands find their way to see dramas, musicals, and other theatrical productions put on by the Masquers and other performance troupes. The gem of Jenkins Hall’s multimillion-dollar theatre complex is the state-of-the-art, 180-seat proscenium main stage theatre.

GARDEN STOP 1: To the right of Jenkins Hall is the Primitive Garden. This plant collection displays living relatives of ancient plants and features stone benches that students frequent between classes.

GARDEN STOP 2: To the left of Jenkins Hall is the Fern Garden, displaying both native and non-native ferns and their allies.

GARDEN STOP 3: Located in front of Jenkins Hall is the Camellia Garden. This 28,000-square-foot garden contains over 50 species of camellia. The Camellia Garden leads into the heart of campus, known as the Academic Quad. Original to the 1964 campus, the Academic Quad has been a focal point of campus for decades.
The SCIENCE CENTER is a state-of-the-art, two-building complex that is entirely devoted to science and technology. Connected with a modern glass bridge, the Science Center houses the Departments of Biology, Chemistry and Physics, Computer Science and Information Technology, Engineering, Mathematics, and Psychology.

The STUDENT RECREATION CENTER opened in the summer of 2006. The 38,000-square-foot facility includes a 5,200-square-foot fitness center, two basketball courts, and a fitness classroom.
You will be spending a lot of time at LANE LIBRARY. The two-story library consists of approximately 870,000 items, including nearly 213,000 book volumes, over 35,000 microforms, and 9,700 individual audiovisual items. The library subscribes to 525 journals, magazines, and newspapers in print and provides electronic access to articles from over 10,000 periodicals.

The LEARNING COMMONS is a 14,000-square-foot, technology-rich resource that holds Mac and PC computer labs, interactive technology tables, audio/video editing rooms, library reference rooms, group study spaces, seating for 300, a lecture space, and more. Designed to LEED Gold standards of the U.S. Green Building Council, the Learning Commons was able to repurpose the original building and contains sustainable features such as a vegetated “green roof” (that can be seen from the balcony of the Student Union) and rooftop solar panels, which are expected to save nearly 20 percent of total energy costs.

GARDEN STOP 4: Located to the right of the Learning Commons is the Ginger Garden. This garden contains plants belonging exclusively to the Zingiberaceae family and blooms in Armstrong colors of maroon and gold.
Completed in 2010, the **STUDENT UNION** is the hub of student life and features a 200-seat theatre, dining hall, the University Bookstore, a convenience store, and a coffee shop.

Attached to the Student Union is the **MEMORIAL COLLEGE CENTER (MCC)** which houses student services and programs such as Student Life, Career Services, Military Outreach Center, the Office of Multicultural Affairs, Disability Services, and the Office of Hispanic Outreach and Leadership at Armstrong (HOLA). MCC also has a few dining options for students to choose from including Quiznos and the WOW Café and Wingery.
The COMPASS POINT STUDENT RESIDENCE HALL features apartment-style housing for upper classmen with four bedroom/two bath and two bedroom/two bath options. Compass Point also has a central clubhouse, mailboxes, laundry facilities, and 24-hour live-in professional staff. Compass Point is also home to the Main Housing Office, Student Health Services, and the Counseling Center. Student Health Services offers affordable health care with trained professionals right on campus, and the Counseling Center houses licensed counselors who are willing and ready to help. They also offer free seminars, such as time and money management, to help ease your transition into college life.
Completed in 2010, WINDWARD COMMONS is an exclusively freshmen residence hall with suite-style housing that includes private and semiprivate options. This technologically advanced space is a card access-only building with wireless internet, remote monitored laundry facilities, 24-hour live-in professional staff, micro-fridges in each suite, game room and more.
At 89,000 square feet, **UNIVERSITY HALL** is one of Armstrong’s largest academic buildings and is uniquely designed to look like the streets of downtown Savannah. It features the Patio Café and an expansive outdoor patio space. Housed within this building are the offices for the Department of Criminal Justice, Social & Political Science; Digging Savannah; the Department of Mathematics; the College of Education; the Technology Center; and the Coastal Savannah Writing Project.

**ASHMORE HALL** houses most of the College of Health Professions. The classrooms and Ashmore Auditorium are used for classes and labs in Nursing, Respiratory Therapy, Medical Laboratory Science, and Radiologic Sciences.
The FINE ARTS HALL houses the Department of Art, Music & Theatre; the box office; and the Fine Arts Auditorium. Music students and the community enjoy concerts and recitals in our 1,000-seat, state-of-the-art concert hall, considered by many to be the most acoustically perfect concert venue in Savannah. Also located in this building is the Armstrong Fine Arts Gallery, which features nine to ten exhibitions per academic year.

Renovated in 2002, SOLMS HALL houses the College of Liberal Arts, the Office of Academic Orientation and Advisement, the Office of Hispanic Outreach and Retention, as well as the Office of First Year Experience.
GARDEN STOP 5: The INTERNATIONAL GARDEN is Armstrong’s largest garden. It is a popular outdoor gathering space among our students, and celebrates the diversity of the Armstrong community by displaying plants from around the world. Designed as an educational resource, it features plazas representing the continents of Africa, Asia, Australia, Europe, and South America. Plants native to each continent surround each plaza.

Named for Foreman Hawes, president of Armstrong Junior College and Armstrong College from 1944 to 1964, HAWES HALL houses the Department of History, the Department of Economics, the Center for Regional Analysis, and Student Research Center.
**17 BURNETT HALL** is named for former university president, Robert Burnett, and is one of the eight original buildings on our current campus. As the university’s front door, it houses the Office of the President, the Office of Advancement, the Office of the Provost, and Alumni Affairs.

**GARDEN STOP 6:** Located to the left of Burnett Hall is the Conifer Garden, which contains over 140 different conifers and is one of seven gardens on campus. Armstrong is an Arboretum, divided into several different gardens for scientific research.

**GARDEN STOP 7:** If you walk around to the back of Burnett Hall, you will see our White Garden.
The **SPORTS CENTER** is home to the 4,000-seat Alumni Arena and houses an indoor running track, state-of-the-art weight room, offices, classrooms, and more. Behind the Sports Center, you will find tennis courts, a baseball field, softball field, soccer field, and an intramural sports field. This is also where the Department of Health and Physical Education is located.

You can also drive to the **Armstrong Center and Sports Center**, located on the edges of campus.

The **ARMSTRONG CENTER** is home to undergraduate Rehabilitation Science, the Doctorate of Physical Therapy program, and the graduate and undergraduate program for Communication Science and Disorders. You can also find the faculty offices for Medical Lab Science, Respiratory Science, Respiratory Therapy, and Radiologic Science in this building. In the outdoor mall area is the Information Technology Services office, which is home to the IT Help Desk.
