Classroom Observation Protocol for Undergraduate STEM (COPUS): Educational Research and Professional Development of STEM Faculty

Wednesday April 25, 2018  4:00 – 5:15pm
Science Center 1407

Dr. Dechenne-Peters is an Assistant Professor of Biology at the GSU Armstrong Campus. She received her PhD in Science Education from Oregon State University and conducted post-doctoral research at the Nebraska Center for Research on Children, Youth, Families, and Schools. Her research focuses on course-based undergraduate research experiences and the development of science process skills.
