Sample Mid-Term Evaluation Form

How effectively is class time used? Is there an appropriate mixture of concepts vs. examples? How could the instructor make better use of class time?

Is the pace of the class appropriate? If appropriate, was the transition between your last math course and your current course smooth?

Is the classroom a comfortable learning environment and do you feel comfortable asking questions during or after class or during the instructor’s office hours? Offer suggestions for improvement if appropriate.

Are the lectures interesting and inspirational? Are topics and examples presented appropriate to the course? Is the instructor enthusiastic and prepared for class? Offer suggestions for improvement if appropriate.

Have consistent goals, procedures, and expectations of the instructor been established for the course? Has the instructor followed through with these goals?

Is the class-work (homework, projects, tests, etc.) appropriate and enlightening? Is grading fair and consistent? How much time per week do you typically spend on class-work? Do you study alone, in the tutoring center, or in a group?

What grade do you expect to get in this class, and why?

If a friend planned to take a course from this instructor, what would you tell them?
