ELECTION OF VICE CHAIR

ITEMS

I. College of Health Professions

A. Communication Sciences and Disorders

1. Modify the following course:

CSDS ~~3150~~ **2240** Normal Speech and Language Development 3-0-3

Prerequisite: ~~Admission to the Communication Sciences & Disorders Program~~ **None**

Rationale: This course has been moved from the junior year to the sophomore year in the undergraduate course rotation. Council on Academic Accreditation of American Speech-language Hearing Association recommends courses dealing with normal speech/language processes are taught prior to courses discussing disorders of

speech/language. The move was made due to this recommendation. The new number better indicates the level of the course and its position within the plan of study and will be taken by students prior to admission in the program.

Effective Term: Fall 2007 (Spring 2010; see Attachment 1)

Rationale: National program certification criteria identify this knowledge/content area as an essential competency for all undergraduate health services administration students to obtain. Some of the content for this area is currently covered in an existing course (HSCC 2500), but not the extent that is now required under the published criteria. Creating a stand-alone course would allow the program to fully develop this competency to meet published requirements.

Course examples will be drawn from classroom resources available to educators. Students will be expected to develop a portfolio of grade-level appropriate examples for future classroom use.

Rationale: The Georgia Performance Standards for Economics requires that high school economics teachers pass an exam that is approximately 85 percent economics and 15 percent personal finance. To cover the material necessary for proper preparation, prospective high school teachers would currently need to take at least two economics courses for which there is little or no room available in their curriculum. This course provides a practical foundation for meeting educational needs for teachers K-12. Graduate students will be required to create and present a course module for an assigned topic.

8. Modify the requirements for the Certificate in Financial Economics:

“The Certificate in Financial Economics can be earned in one of two tracks. First, it can be taken in tandem with a formal undergraduate degree. The second option is the professional track, designed for non-degree students with a professional or occupational interest in financial economics. Individuals are eligible for this track upon presentation of proof of a valid undergraduate degree from an accredited institution. In either case, students should meet with an advisor in order to declare their interest in the certificate program and to plan their course of study.

Under either track, the certificate will be awarded upon successful completion of all of the following courses with a grade of C or better in each.

Undergraduate students following the first track are also required to finish with a cumulative GPA of 2.75 or above. An official certificate and an official notation on the transcript will be awarded upon satisfactory fulfillment of these requirements.”

Rationale: The new course is appropriate for the certificate and requiring it alleviates the problem of finding a suitable fifth course.

Effective Term: Fall 2010

Rationale: The number of Pre-Business students is growing. These students all intend to finish degrees at other institutions, primarily because we have no business degree. Many of these students came to AASU because they would rather be here, but we are losing them. The applied nature of this program is very likely to keep many of these students at AASU. This would be a very attractive major to absorb some of the growth expected with the completion of the new student housing and the imposition of campus residency requirements.

Resource Needs

With the addition of administrators to the teaching faculty, there are faculty members on campus capable of teaching most or all of the new courses. We might need two part-time faculty members plus additional sections of accounting depending on the growth of the program.

Dear Dr. Whitford,

The purpose of this correspondence is to make an emergency request for administrative approval of CSDS 2240 within the curriculum of the Department of Communication Sciences and Disorders. The faculty in the department met and agreed to move CSDS 3150 to the sophomore year. As a result we subsequently approved the renumbering of the CSDS 3150 to CSDS 2240, to accommodate a suggestion made by our accrediting agency indicating course work addressing normal speech and language development and speech language processes should come before any course work on disorders of communication. It appears with a number of departmental activities going on this year, to include our site visit for reaffirmation of accreditation this item was not carried beyond the departmental level.

The curriculum item will be forwarded on the curriculum committee of the College of Health Professions. The department request it will be acted upon during the college's first meeting of the 2009-2010 academic year and forwarded on to the university curriculum committee.

Your consideration of this request is appreciated and we look forward to hearing from you.

Sincerely,

Donna R. Brooks
 Department Head

Shelley F. Conroy, Dean
 College of Health Professions

Please add the following to the University Curriculum Committee's agenda for the fall.

Rick McGrath (chair of the University Curriculum Committee) and I (chair of the Graduate Affairs Committee) agree that it would be best we have the route of curriculum items for both undergraduate and graduate committees in one place, so in its last meeting, the GAC voted to request the following statement (adopted earlier in the term) be added to the UCC bylaws in the final paragraph:

"If college deans choose to send graduate curriculum items to their college committees for review; the reviewing college committee members must hold associate or full graduate faculty status."

It should be inserted at the asterisk.

"The normal path for curricular issues is as follows: Issues related only to undergraduate programs proceed from the academic department to the College Curriculum Committee, then to the University Curriculum Committee and finally to the Faculty Senate. * Issues related only to graduate programs proceed from the academic department to the Graduate Curriculum Committee and then to the Graduate Affairs Committee. Issues related to both undergraduate and graduate programs proceed from the academic department to the College Curriculum Committee, then to the University Curriculum Committee, then to the Graduate Curriculum Committee, and finally to the Graduate Affairs Committee."
