## **B. Criminal Justice, Social, and Political Science**

### **1. Create the following course:**

**POLS 4540 International Political Economy**

**?-?-?**

**Prerequisite: POLS 1150 or POLS 2290 or ECON 2105**

**Description: Examination of transnational problems and dilemmas related to the production, distribution, and consumption of scarce resources and the role of states and international institutions in shaping the structures of global political economy.**

Rationale: The world economy is once again more interdependent than ever as reflected in the increased cross-border flows of goods, services, and capital and in the sustained activity of international organizations and institutions like the IMF, World Trade Organization and World Bank. In such a “flat” world, domestic political and economic dynamics have global implications, while international events can have a far-reaching impact domestically. This course is also a core course in most political

science programs throughout the nation. This course will also help out graduate students as they pursue advanced studies in either political science or economics.

**Effective Term: Spring 2013**

**CURCAT:**

**Major Department: Criminal Justice, Social & Political Science**

**Can course be repeated for additional credit? No**

**Maximum number of Credit Hours: 3**

**Description: Examination of the organization and role of educational institutions in contemporary society, including contributions to both social mobility and the preservation of the prevailing social order.**

Rationale: Sociology department course offerings around the United States often include classes in the Sociology of Education as part of their regular, core curriculum. As Sociology at Armstrong continues to grow, the program must necessarily offer more and varied courses that are similar to its peer institutions. Currently, public education is the focus of intense political debate. Students can better participate in these discussions and will benefit from understanding the various perspectives informed by sociological theories and research. More specifically, students will learn how race, class, and gender affect educational experiences and outcomes.

**Effective Term: Spring 2013**

**CURCAT:**

**Department: CJSPS**

**Can course be repeated for additional credit? No**

## C. Economics

### 1. Create the following course:

**ECON 3111 Skills in Entrepreneurship**

**3-0-3**

**Prerequisite: Junior standing in any major**

**Description: A project- based class for students in all majors. Focuses on basic knowledge and skills needed to start a commercial business or begin a career.**

**Topics include basic marketing, financial, and management concepts that promote individual talents, create career opportunities, and create financial gain from skills and talents developed in any discipline.**

Rationale: The goal of this course is to help students in any discipline develop and apply basic business skills in a manner that will help them achieve their career objectives. Particular attention is paid to learning how to develop a business based on the skills and talents developed in the student's major.

**Effective Term: Fall 2013**

**CURCAT:**

**Major Department: Economics**

**Can course be repeated for additional credit? No**

**Maximum number of credits: 3**

**Grading Mode: Normal**

**Instruction Type: Lecture**

### 2. Create the following course:

**ACCT 2101 Principles of Financial Accounting**

**3-0-3**

**Prerequisite: MATH 1111**

**Description: The theory and application of accounting concepts for reporting financial information to outside users. The course stresses the relationship between the rules by which financial statements are prepared and the use of financial statement information for decision making.**

Rationale: Replaces ECON 2030. Consistency with other institutions. Ease of transfer using USG reserved course numbers and common course titles. Consistency with the credentials of faculty teaching the course: only faculty with accounting credentials teach this course, therefore the ACCT prefix is most appropriate. This course is already referenced as ACCT 2101 in many parts of the catalog rather than ECON 2030.

**Effective Term: Fall 2013**

**CURCAT:**

**Major Department: Economics**

**Can course be repeated for additional credit? No**

**Maximum number of credits: 3**

**Grading Mode: Normal**

**Instruction Type: Lecture**

**Course Equivalent: ECON 2030**

**3. Create the following course:**

**ACCT 2102 Principles of Managerial Accounting**

**3-0-3**

**Prerequisite: ACCT 2101**

**Description: The theory and application of managerial accounting concepts. The course stresses the use of accounting information for decision making and the role of managerial accounting in a business environment.**

Rationale: Replaces ECON 2040. Consistency with other institutions. Ease of transfer using USG reserved course numbers and common course titles. Consistency with the credentials of faculty teaching the course: only faculty with accounting credentials teach this course, therefore the ACCT prefix is most appropriate. This course is already referenced as ACCT 2102 in many parts of the catalog rather than ECON 2040.

**Effective Term: Fall 2013**

**CURCAT:**

**Major Department: Economics**

**Can course be repeated for additional credit? No**

**Maximum number of credits: 3**

**Grading Mode: Normal**

**Instruction Type: Lecture**

**Course Equivalent: ECON 2040**

**4. Delete the following course:**

~~ECON 4112 — Economics of Entrepreneurship II ————— 3 0 3~~

Rationale: has not been taught for several years.

**Effective Term: Fall 2013\**

**5. Delete the following course:**

~~ECON 2030 — Principles of Financial Accounting ————— 3 0 3~~

Rationale: Replaced by ACCT 2101.

**Effective Term: Fall 2013**

**6. Delete the following course:**

~~ECON 2040 Principles of Managerial Accounting ————— 3 0 3~~

Rationale: Replaced by ACCT 2102.

**Effective Term: Fall 2013**

**7. Modify the following course title**

ECON 4111 ~~Economics of~~ Entrepreneurship ~~I~~ 3-0-3

Rationale: As the capstone course in the business economics track, this course is most appropriately described as Entrepreneurship. There is an item to delete ECON 4112, so the numerical designation 'I' is no longer needed.

**Effective Term: Fall 2013**

**8. Modify the following course title:**

ECON 3800 Quantitative ~~Consumer~~ Marketing Research 3-0-3

Rationale: Consistency with course titles at other institutions.

**Effective Term: Fall 2013**

**9. Change portions of the text of the Economics catalog entry to the following:**

**Special Programs**

~~An honors program in economics is available.~~ **To graduate with departmental honors in Economics, the student must be a member of the Honors Program, graduate with honors in the core, and complete a senior research project with satisfactory written and oral reports (as judged by a committee of faculty) and must have an economics grade point average of at least 3.5.**

**Progress Requirements**

Students must earn a grade of C or better in every course required for the major or minor. **Students must earn a grade of C or better on a departmental exit exam specific to the chosen track in the economics major. Exit exams are offered once each semester. Exit exams may be taken prior to the student's last term if all required courses for the track, except for the capstone, are in progress or completed.** ~~The Department of Economics offers a certificate program in financial economics. This program offers students the opportunity to obtain a broad understanding of various aspects of financial economics, ranging from capital markets and financial institutions to foreign exchange markets.~~

**Certificate Programs**

**The Department of Economics offers a certificate program in financial economics. This program offers students the opportunity to obtain a broad understanding of various aspects of financial economics, ranging from capital markets and financial institutions to foreign exchange markets.**

The Certificate in Financial Economics can be earned in one of two tracks. First, it can be taken in tandem with a formal undergraduate degree. The second option is the professional track, designed for non-degree students with a professional or occupational interest in financial economics. Individuals are eligible for this track upon presentation of proof of a valid undergraduate degree from an accredited institution. In either case, students should meet with an advisor in order to declare their interest in the certificate program and to plan their course of study.

Rationale: 1. We would like to specify in the catalog the requirements for honors in economics to draw students' attention to the program. 2. Currently, the departmental exit exam is a small part of the capstone grade. A review of exam responses suggests that our students do not take the departmental exit exam seriously as part of their capstone grade. This devalues the exit exam as an assessment tool. Due to the nature of the capstone courses, it would be inappropriate to require students to retake the capstone due to failure on the exam. Therefore, we would like to separate the exit exam from the capstone course and make it a separate graduation requirement. 3. Part of the description of the financial certificate was misplaced in the catalog entry and needs to be moved. (Our error when a new heading was created)

**Effective Term: Fall 2013**

**10. Change the Business Minor to include the following restriction.**

Business.....15-18 hours  
 ECON 2106, ACCT 2101, ~~ECON 2030~~, 3210, 3220, 3230, and . ECON 2105  
 (required if not taken in the core curriculum).  
**ECON 3210, 3220, and 3230 may not be used to meet both major and minor requirements.**

Rationale: Limiting ECON 3210, 3220, 3230 from both major and minor will disallow the business minor for economics majors in the business economics track and will require other economics majors to take these courses in addition to their major requirements. Reflects new number for ACCT courses. Clarification of ECON 2105 expectation.

**Effective Term: Fall 2013**

**11. Remove ECON 4112 from the program of study for the business economics track.**

Track III: Business Economics  
 B Major Field Courses.....33 hours  
 ECON 3050 - Intermediate Macroeconomics or ECON 3060 Intermediate

ECON 3230 – Finance  
 ECON 3300 – Money and Banking  
 ECON 3500 – Managerial Economics  
 ECON 4111 – Economics of Entrepreneurship I

Twelve credit hours drawn from among the following courses:

ECON 3050 - Intermediate Macroeconomics  
 ECON 3060 – Intermediate Microeconomics  
 ECON 3450 - Environmental Economics  
 ECON 3460 – Economics of Immigration

 ECON 4451 - Industrial Organization  
 ECON 4500 - Public Finance  
 ECON 4520 - Internship (with permission of department head)(maximum of three credits may count toward Major Field Courses)

Rationale: ECON 4112 is no longer taught and was deleted from the catalog in item 6.

**Effective Term: Fall 2013**

**12. Request for a blanket change in the catalog: Please replace all references to ECON 2030 and ECON 2040 with ACCT 2101 and ACCT 2102, respectively. There is no change in level or content for these courses.**

Total Semester Hours	63
C. Exit Exam	

Rationale: The Associate of Science Degree is technically called “Associate of Science Core Curriculum” even though it is currently only used for Engineering Studies. Thus, the degree is open to other majors. The College of Health Professions asked for our endorsement of their use of the degree to form Associate of Science degrees in a number of their departments (i.e. nursing) ad a mechanism to deal with the pre-major problem. Upon that endorsement, renaming our track allows other departments to add additional tracks to this major.

The program of study is not changed, however it will also now be listed in the Interdisciplinary studies section of the catalog with the other tracks, as well as in Engineering Studies.

**Effective Term: (*Whenever the other tracks go into effect ~Editor*)**

- E. Mathematics (no items)
- F. Psychology (no items)
