MEMORANDUM

To: Dr. Linda M. Bleicken, President

From: Dr. Anne W. Thompson, Interim Vice President for Academic Affairs

Date: November 28, 2011

Re: Faculty Senate Bill 052.11/12: University Curriculum Committee

The items in Faculty Senate Bill 052.11/12: University Curriculum Committee are approved, with one exception.

On pages 48-49, Item III.F.3 calling for the creation of the Program of Study for the Bachelor of Arts in Philosophy is not approved. As the Board of Regents is currently assessing institutions for duplication of programs, and as the processes for new program review at the BOR have changed, it is not the optimal time for sending forward this new degree program.

Two references are attached that address the changes in the program review process.
Implications for New Program Proposals Currently at the System Office:
- We currently have 27 active proposals in the pipeline from 14 institutions (received between April and October 2011)
  - We will proceed immediately to do an initial integrated review of each of these programs
  - Institutions with multiple programs will be asked to prioritize their program proposals and the top priority program will be reviewed first
  - Reviews will be conducted based on date of receipt of the program (from oldest to most recently received)
  - Programs will be reviewed by Academic Affairs, Fiscal Affairs, and Facilities staff per the Chancellor's memo
    - We will attempt to complete the initial review using the information in the current proposals, but may need to ask institutions for additional information
    - The initial review will primarily be based on program need
  - Institutions will be informed if their proposed program satisfies the initial review and if additional information is needed to evaluate the program as a full proposal.
    - Per the Chancellor's memo, the more extensive review of the program will be based on the USG and institution's strategic plan, current and planned academic offerings, facility and technology requirements, student needs, and costs associated with launching and sustain the programs.
    - All institutions will be asked for more detailed information on out-year estimates of budget and facility impact
    - Programs that are reviewed as ready for Board consideration will be slated for early 2012 Board meetings

Process for Future Submissions of Proposed Programs:
- No new program proposals will be accepted until January 2012 to allow the programs currently in the pipeline to be thoroughly reviewed
- Parallel to the review of the existing program proposals, Academic Affairs staff will be preparing for the full implementation of the two step integrated process by January 2012
  - Beginning January 2012, institutions will submit a Program Prospectus to a SharePoint site
    - We will communicate specific online submission instructions to institutions in November/December
    - Academic Affairs staff will revise program review forms and review new program review criteria as needed and communicate any changes to institutions in November/December
      - The revised forms will include specific questions if the program is to be delivered 50% or more online
    - Establish appropriate timelines for appropriate review of programs at each stage of the process
    - We will vet proposed changes with the RACAA Executive Committee before implementation
  - The Prospectus will receive an initial review by Academic Affairs, Fiscal Affairs, and Facilities staff
    - Initial review will be based primarily on need but cost, mission fit, and duplication will also be considered
    - Based on the initial review institutions will not be asked to submit full proposals
  - The Full Proposal will be thoroughly vetted and reviewed
    - At this point program reviews will continue to be:
      - vetted through the appropriate Regents' Academic Advisory Committee
      - sent to external reviewers for doctoral level programs
      - given a 30 day window for institutional comments

Reminder: Institutions who wish to offer an existing BOR-approved program online only need to notify the USG Chief Academic Officer 60 days prior to implementation (unless it is the institution's first online program – the initial offering of an online program requires a SACS substantive change request and Board approval).
MEMORANDUM

TO: Presidents
    University System of Georgia

FROM: David M. Morgan
      Interim Executive Vice Chancellor and Chief Academic Officer

DATE: August 24, 2011

SUBJECT: Regents Committee on Academic Affairs

As you know the August Board meeting represented the first meeting following a change in both Board and USO leadership. I thought it would be helpful to you to learn more about the actions and discussion that transpired in the Academic Affairs Committee.

Tabling of Four Academic Programs
The Committee recommended and the Board agreed to table the four new degree programs on the agenda. The Board's action was based on the Chancellor's recommendation that these programs be tabled in light of the new instructions from the Office of Planning and Budget that each state agency hold back 2% of its budget for both FY 2012 and FY 2013. The combined amount of this hold back for both years equals $70 million. These additional cuts were announced very late in the setting of the final agenda for the August meeting.

The Board tabled these programs so that staff would have time to work with these individual institutions to determine the full impact of these additional reductions on their ability to use existing resources to deliver these new degree programs. Given the current state of the economy and the budget we believe that it is critical for institutions to take extra steps to ensure the Board and the public that institutions are making the best use of limited state resources as we address the educational needs of the state through the development of new degree programs.

Listed below are the questions staff posed to the four institutions that had programs on the August agenda. Depending on the comprehensiveness of the proposal not all institutions were asked all four questions. It is likely we will be asking these or similar questions about all new programs we review in the coming year. Having this information should assist you and your faculty as you work on new program proposals and new program planning on your campus. The questions are:

1) Institutional Priority: In an environment of continued reduced state funds, do you consider this new program "a" or "the" top institutional priority for the next year or two? Do you have other programs, which you have already submitted or are planning to submit in the next two
years that you would rate as having a higher priority? If the answer here is yes, would you prefer to withdraw this program from consideration at this time?

2) Need (System and Institutional):
Please explain how the new major is a primary need that will contribute to the needs of the USG, the state, and/or address the academic needs in the discipline in conjunction with your current degrees and majors.

3) Reallocation Plan: In light of the new 2% budget reduction for FY 2012 and FY 2013 please provide a reallocation plan for how your existing resources will be used to establish and maintain the new academic program. Exactly how will you redirect funds to support the new program and what impact will this redirection have on units or initiatives that will lose resources? If you are using existing faculty to launch or deliver the program please include a detailed faculty load analysis that illustrates how additional courses will be covered and what impact new courses will have on existing course delivery.

4) Projected Enrollment and Growth: Projections have been made with regard to enrollments and graduates for the proposed program. Explain the methodology used to derive enrollment projections. It is important that the projections are accurate, especially if new student enrollment will be needed in order to sustain funding for the program. We are looking here for more detail than would normally be expected in an original proposal.

Emerging Academic Affairs Committee Role
Staff used the opportunity of new Board and USO leadership to engage the Academic Affairs Committee on the role it wishes to play in its oversight of academic programming and major academic initiatives. The feedback we received from the Committee is shown below:

• There was general agreement that the USG needs some type of feasibility study for the state in terms of postsecondary educational needs. Such a study could then serve as a framework for program development at our institutions. Program development should be a two-way partnership between Board/State level identified needs and ideas from the institutions (much like what has been done in teacher education and health fields).
• Program development should align with the USG Strategic Plan and focus on less duplication. Programs should also fit into the big picture initiatives such as Complete College America and Race to the Top.
• The Committee would like to see more faculty and student presentations.
• It was suggested that we take a look at the entire program development and review process we use and make sure it is tied to strategic planning or critical state initiatives. Ultimately, this process should take us where we want to go.
• The Committee would like to spend more time on big picture issues and less time on individual program approval.
• When a program comes forward, it would be helpful if the request included the long-term vision of the program. What do the institutions see happening with this program down the road, e.g., will new buildings be needed?
• It was suggested that all programs be filtered through the lens of workforce need and preparation.

"Creating A More Educated Georgia"
www.usg.edu
• The Committee would like to see some follow-up on how approved programs are doing. It was suggested that a sample of institutions report back on programs at regular Board meetings. The Board was promised a one-year follow up report on the institutional Retention, Progression, and Graduation plans presented last year. That one-year date will be October 2011.

• The Committee also asked for some follow-up on the institutions that have received exemptions to the Regents Test and where we are with this policy.

As you can see, the Committee is very interested in becoming more engaged in the major academic initiatives ongoing in our state. They see a natural alignment between new degree programs and these major initiatives. It is our intent to follow up with the Committee on each of their requests and it is likely that we will call on some of you to help us get the right information to them.

Staff is also currently looking at our new program approval policies and procedures and benchmarking what we do with other state systems. We will share the outcome of this review and any recommended changes that are being considered. Your input will be very useful as we work to strengthen our processes and policies around new program approval.

Thank you for your patience and your support as we continue to work with the Regents.

C: Chancellor Huckaby
USO Cabinet
OAA Senior Staff
USG VPAA's
The following UCC minutes and actions are provided to the University President for approval.
PRESENT: James Brawner, Myka Campbell, Kathryn Craven, José da Cruz, Catherine Gilbert, Leon Jaynes, Kam Fui Lau, Rick McGrath, Glenda Ogletree, Randall Reese, Jack Simmons, Rona Tyger, Phyllis Panhorst (Catalog Editor)

ABSENT: Denene Lofland

GUESTS: Bill Daugherty, Mark Finlay, Judy Ginter, Bob Gregerson, John Hobe, John Kraft, David Lake, Will Lynch, Erik Nordenhaug, Sandy Streater, Patricia Wachholz, David Wheeler, Zaphon Wilson, Jennifer Zettler

CALL TO ORDER. The meeting was called to order at 3:00 by Dr. Rick McGrath.

APPROVAL OF MINUTES. The minutes of August 17, 2011 were approved as presented.

ITEMS

I. College of Education

Item 1 from the College of Education was discussed and approved by the committee. It is being submitted to the Faculty Senate for approval.

1. Delete the following courses:
   LMUG 3000 INTRODUCTION TO MEDIA PROFESSION
   LMUG 3100 REFERENCE SOURCES
   LMUG 3200 CATALOGUING AND CLASSIFICATION
   LMUG 4100 MEDIA SELECTION
   LMUG 4200 ADMINISTRATION OF INFORMATION CENTERS
   LMUG 4250 MEDIA INTERNSHIP

   **Rationale:** these courses are superseded by LSLI and are now redundant.

   **Effective Term:** Fall 2012

A. Adolescent and Adult Education (no items)
B. Childhood and Exceptional Student Education

Items 1-17 from the Department of Childhood and Exceptional Student Education were discussed and approved by the committee. They are being submitted to the Faculty Senate for approval.

Please see Attachment 1 for background information on Program for the Degree Bachelor of Special Education.

1. Modify the following course:
   SPED 3001 Assistive and Adaptive Technology for the Special Educator 2-0-2 3-0-3
   Prerequisite: Admission to candidacy in the Department of Special and Adult Education College of Education
   Description: The use of adaptive technology. Course covers methods for using technology to support and extend instruction, the appropriate uses of assistive and adaptive technology, techniques for selecting and utilizing computer based instructional programs, and methods for developing multimedia-based, interactive instructional materials.
   Rationale: The program of study requires a technology course specific to the needs of special educators that has adequate hours to cover all required content. The title more accurately reflects the changes in the course's purpose and content.
   Effective Term: Fall 2012

2. Modify the following course:
   CEUG 2100 Introduction to Students with Disabilities 3-0-3
   Prerequisite: None
   Description: Survey of special education policies and identification and education of students who have special education needs. Provides an introduction to federal and State of Georgia legislation mandates, and policies that support the identification and education of children, adolescents, and young adults who have learning needs requiring special education services and programs. Introduces the array of services available to individuals with disabilities as well as identification practices, including response to intervention (RtI). Meets educator certification requirements for under H. B. 671
   Rationale: Upgrades course to provide a stronger focus on the legal and procedural aspects of services provided to diverse individuals who receive special education services.
   Effective Term: Fall 2012

3. Modify the following course:
   SPED 3006 Assessment, Eligibility, and IEP Development 3-0-3
Prerequisites: CEUG 2100 and Admission to Candidacy in the Department of Special and Adult Education and admission to candidacy in the College of Education

Description: Instruction in formal and informal assessment techniques and instruments appropriate for use in assessing students with disabilities. Directed field experience. Demonstrates the use of assessment data to determine eligibility for services and to develop and evaluate individual education plans (IEP).

Rationale: Course combines content from SPED 3007 Eligibility and IEP Development with the content of SPED 3006 Assessment to provide teacher candidates with a clearer understanding of the important legal and procedural links between assessment, eligibility, program planning and summative evaluation.

Effective Term: Fall 2012

4. Modify the following course:
   SPED 4004 Curriculum and Instructional Strategies in the Content Areas 3-0-3
   Prerequisites: Admission to candidacy in the Department of Special and Adult Education College of Education, and SPED 3001, and SPED 3006
   Description: Research based and technology enhanced strategies for teaching study skills and methods for adapting the curriculum to meet the special needs of diverse students with disabilities. Explores instructional standards that support the curriculum. Ensures that students meet curriculum standards at the students' highest achievement levels through careful planning and instruction.

   Rationale: Updates course prerequisites. Expands the scope of the course to ensure knowledge of State of Georgia mandated curriculum standards and achievement expectations for students with disabilities.

   Effective Term: Fall 2012

5. Modify the following course:
   SPED 4008 Collaboration Procedures Fostering Inclusion and Transition Planning and Collaboration to Facilitate Inclusion and Transition 3-V-3
   Prerequisites: Admission to Candidacy in the Department of Special and Adult Education and SPED 4005 and SPED 4006. Admission to candidacy in the College of Education and SPED 4005.
   Description: Offers strategies for working collaboratively with paraprofessionals, parents/guardians, a variety of support professionals and parents-related personnel, and agency staff to plan and provide appropriate special education services to individuals in various instructional programs and settings, including transitions to secondary education or employment. Emphasizes team planning skills required for team building. A Directed field experience is required.

   Rationale: Updates course prerequisites. Description better reflects changes to the course’s purpose and content.
6. **Modify the following course:**
   SPED 4005 Strategies for Developing Social Skills and Behavioral Controls 3-V-3
   Prerequisites: Admission to Candidacy in the Department of Special and Adult Education and SPED 2003, SPED 3001, SPED 3007, SPED 3010 Admission to candidacy in the College of Education, SPED 3001, and SPED 3006
   Description: Instructional methods for teaching conflict management, social interaction skills, language pragmatics, and social skills behaviors conducive to learning. Provides guidance on classroom management strategies that reduce the behaviors and attitudes that disrupt learning. Includes practicum.

   **Rationale:** Updates course prerequisites. Description better reflects changes to the course's purpose and content. Incorporates essential content from SPED 4006 Planning and Managing the Learning Environment. No practicum is required.

**Effective Term: Fall 2012**

7. **Modify the following course:**
   SPED 4002 Teaching Mathematics to Students with Disabilities 3-V-3
   Prerequisites: Admission to Candidacy in the Department of Special and Adult Education and SPED 2003 Admission to candidacy in the College of Education, SPED 3001, and SPED 3006

   **Rationale:** Updates course prerequisites

**Effective Term: Fall 2012**

8. **Modify the following course:**
   SPED 4003 Teaching Reading, Spelling, and Written Expression to Students with Disabilities 3-V-3
   Prerequisites: Admission to Candidacy in the Department of Special and Adult Education and SPED 2003 Admission to candidacy in the College of Education, SPED 3001, and SPED 3006

   **Rationale:** Updates course prerequisites

**Effective Term: Fall 2012**

9. **Modify the following course:**
   SPED 4740 Internship I: Directed Field Based Research 1-V-3
   Prerequisite: Admission to Candidacy in the Department of Special and Adult Education. Admission to candidacy in the College of Education, MATH 2200, and SPED 3006, SPED 4002, and SPED 4003

**Effective Term: Fall 2012**
10. Modify the following course:
SPED 4750 Internship II: Student Teaching
Prerequisite: Admission to Candidacy in the Department of Special and Adult Education Admission to candidacy in the College of Education and satisfactory completion of all required other coursework and a satisfactory grade on Chapters I and II of the assessment portfolio program requirements.
Description: Provides an extensive supervised field-based capstone teaching experience. Serves as the capstone for the program of study. Must be completed satisfactorily before the candidate can be recommended for teacher certification.

Rationale: Updates the prerequisites. Clarifies the purpose of the internship.

Effective Term: Fall 2012

11. Delete the following course:
SPED 4007 Directed Field Based Research

Rationale: The content of this course has been moved into SPED 4740 Internship I where candidates will conduct directed field based research in a school setting.

Effective Term: Fall 2012

12. Delete the following course:
SPED 2003 Curriculum and Educational Practices for Students with Disabilities

Rationale: Course content determined to be redundant. Curriculum and practices are covered in depth in SPED 4002, 4003, and 4004.

Effective Term: Fall 2012

13. Delete the following course:
SPED 3007 Eligibility and IEP Development

Rationale: Content has been added to SPED 3006 Assessment to create the revised course SPED 3006 Assessment, Eligibility, and IEP Development.

Effective Term: Fall 2012
14. Delete the following course:
   SPED 4006 Planning and Managing the Learning Environment  3-V-3

Rationale: Content from this course has been added to SPED 4005 to expand and enrich the course’s content.

Effective Term: Fall 2012

15. Modify the Program of Study for the Bachelor of Science in Education in Special Education: Cross-categorical

A. General Requirements (Core Areas A, B, C, D, and E) 42 hours

Area F .................................................................................................................... 18 hours
EDUC 2110 Investigating Critical and Contemporary Issues in Education  3
EDUC 2120 Exploring Socio-cultural Perspectives in Diversity in Education Contexts  3
EDUC 2130 Exploring Learning and Teaching  3
CEUG 2100 Introduction to Students with Disabilities  3
SPED 2001 The Field of Special Education: Past and Future  3
CEUG 3010 Constructing Literacy Programs P-12  3
CEUG 3012 Language Acquisition  3
Physical Education .................................................................................... 3 hours

B. Major Field Courses  36 hours
EDUC 3100 Technology Applications for Teachers  2
SPED 2003 Curriculum and Education Practice for Students with Disabilities  3
SPED 3001 Assistive and Adaptive Technology for the Special Educator  3
SPED 3006 Assessment, Eligibility, and IEP Development  3
SPED 3009 Physical and Health Disabilities  3
SPED 4002 Teaching Mathematics to Students with Disabilities  3
SPED 4003 Teaching Reading, Spelling and Written Expression to Students with Disabilities  3
SPED 4004 Curriculum and Instructional Strategies in the Content Areas  3
EDUC 3400 Classroom Management  3
SPED 4006 Planning and Managing the Learning Environment  3
SPED 4092 Directed Field Based Research  3
EDUC 3200 Curriculum, Instruction, and Assessment  3
SPED 4005 Strategies for Developing Social Skills and Behavioral Controls  3
SPED 4008 Collaboration Procedures Fostering Inclusion and Transition Planning and Collaboration to Facilitate Inclusion and Transitions  3
SPED 4740 Internship I: Directed Field Based Research  3
SPED 4750 Internship II: Student Teaching  12

C. Related Content for Highly Qualified  21
21 credit hours in one of the following content areas, with major departmental approval: English, History, Mathematics, or Science.
D. Program Related Courses
Math 2200 Elementary Statistics

Total Semester Hours............................................................................... 123

E. Regents' Test, pass GACE Basic Skills Assessment, clear criminal background check, attempt GACE content area examinations, admission to candidacy within the Department of Special and Adult Education, evidence of professional tort liability insurance valid for no less than three (3) years from date of admission to candidacy, pass appropriate GACE content Exam(s), benchmark portfolios in the unit assessment system, admission to successful completion of Internship II (Student Teaching), criminal background check.

Effective Term: Fall 2012

Rationale: The Program of Study for the Bachelor of Science in Education in Special Education: Cross-categorical has been revised to reflect the changes in educator preparation rules by the Georgia Professional Standards Commission, the state accrediting agency for College of Education teacher certification programs (See www.gapsc.com, Rules: 505-3-.30 and 505-2-.130). These changes reflect the highly qualified intent of the federal legislation known as No Child Left Behind. Candidates of this program will be certified to teach as collaborative special educators in elementary schools. In middle schools and high schools, the candidate who earns this degree will be prepared to teach in a self-contained content area classroom as the teacher of record. Twenty-one hours of content plus a passing score on the related GACE certification examination(s) in the selected content field will allow program graduates to add the field to their special education certificates. The twenty-one hours of selected content will be aligned with the Core Curriculum Georgia Performance Standards that support the curriculum of Georgia public schools. These changes offer candidates a stronger program of study as well a teaching certificate that assures marketability in this high needs area, especially at the middle and secondary levels.

16. Delete the following courses:
   ECUG 4811 Internship I .................................................. 0 V-6
   ECUG 4812 Internship II .................................................. 0 V-6

Rationale: These courses are no longer taught.

Effective Term: Fall 2012

17. Change the following course description:
   EDUC 2130 Exploring Teaching and Learning ........................................... 3-V-3
   Prerequisites: None
   Description: An exploration of key aspects of learning and teaching, with direct applications to the enhancement of learning in a variety of educational setting and contexts. Ten hours of a directed field experience is required.
Rationale: A field experience is required for this course.

Effective term: Fall 2012

Item 18 from the Department of Childhood and Exceptional Student Education was discussed and the undergraduate portion approved by the committee. It is being submitted to the Graduate Curriculum Committee and therefore is marked “For Information Only” for the report to the Senate.

For Information Only:
18. Create the following course (see Attachment 2):
   EDUC 5455U/G Study Abroad in Teacher Education 3-V-3
   Undergraduate Prerequisite: Admission to candidacy in the College of Education and permission of the instructor
   Graduate Prerequisite: Admission to candidacy in the College of Education and permission of the instructor
   Description: This course will prepare teacher candidates for travel and study abroad by engaging them in the study of the culture, cultural transmission to the young, the education system, and the role of the teacher in the designated country in which the study abroad field experience will occur. Candidates will travel to the country to engage in either supervised research or teaching activities to learn more about the instructional theories, philosophies, and practices that support the educational processes for children and adolescents who are comparable to K-12 students in the United States. A field experience is required.

   Rationale: This course is designed to allow candidates in teacher education programs of study to view education and the role of the teacher through the lens of another culture. It will expand candidates’ cultural awareness and perspectives. Graduate level candidates will be assigned course activities appropriate for graduate study.

   Effective Term: Fall 2012

   CURCAT:
   Major Department: Childhood and Exceptional Student Education
   Can Course be repeated for additional credit? No
   Maximum Number of Credit Hours: 3
   Grading Mode: Normal
   Instruction Type: Lecture
   Course Equivalent: None

II. College of Health Professions
   A. Communication Sciences and Disorders (no items)
B. Health Sciences

Items 1 and 2 from the Department of Health Sciences were discussed and the undergraduate portions approved by the committee. They are being submitted to the Graduate Curriculum Committee and therefore are marked "For Information Only" for the report to the Senate.

*For Information Only:*
1. Delete the following course:
   SMED 5005U/G Musculoskeletal Basis of Exercise (3-0-3)
   
   **Rationale:** To come into compliance with SACS we are deleting and renumbering these courses.

   **Effective Term:** Summer 2012

*For Information Only:*
2. Delete the following course:
   SMED 5060U/G Physiological Foundations of Sport and Physical Activity (3-0-3)
   
   **Rationale:** To come into compliance with SACS we are deleting and renumbering these courses.

   **Effective Term:** Summer 2012

Items 3-9 from the Department of Health Sciences were discussed and approved by the committee. They are being submitted to the Faculty Senate for approval.

3. Create the following course:
   HSCF 3005 Applied Musculoskeletal Anatomy and Kinesiology 3-0-3
   **Prerequisite:** C or better in BIOL 2081
   **Description:** Anatomical and kinesiological principles of the musculoskeletal system as related to human movement.
   
   **Rationale:** This course is replacing SMED 5005U so that it may be used as a prerequisite to 3000 and 4000 level courses.

   **Effective Term:** Summer 2012

**CURCAT**
**Major Department:** Health Sciences
**Can course be repeated for additional credit?** No
**Maximum Number of Credit Hours:** 3
**Grading Mode:** Normal
**Instruction Type:** Lecture
Course Equivalent: SMED 5005U

4. Create the following course:
   HSCF 3200 Exercise Physiology  
   Prerequisite: HSCF 3005 and C or better in BIOL 2082
   Description: Acute and chronic physiological and biochemical responses of the human body to exercise.

   Rationale: This course is replacing SMED 5060U so that it may be used as a prerequisite to 3000 and 4000 level courses.

   Effective Term: Summer 2012

   CURCAT
   Major Department: Health Sciences
   Can course be repeated for additional credit? No
   Maximum Number of Credit Hours: 3
   Grading Mode: Normal
   Instruction Type: Lecture
   Course Equivalent: SMED 5060U/ SMED 6060

5. Modify the following course prerequisites:
   SMED 5065U Movement and Posture Assessment and Exercise
   Undergraduate Prerequisite: SMED 5015; HP/FM majors only or HSCF 3005; HP/FM majors only or permission of instructor
   Graduate Prerequisite: unchanged

   Rationale: Course content has shifted to only requiring HSCF 3005

   Effective Term: Summer 2012

6. Modify the following course prerequisites:
   SMED 5015U Assessment and Evaluation of Musculoskeletal Injuries
   Undergraduate Prerequisite: SMED 5005U HSCF 3005 or permission of instructor
   Graduate Prerequisite: unchanged (none)

   Rationale: HSCF 3005 is replacing SMED 5005U.

   Effective Term: Summer 2012

7. Modify the following course prerequisites:
   HSCF 4010 Evaluation and Prescription in Exercise & Sport
   Prerequisite: HP/FM Majors only, HSCF 3005 and HSCF 3200 or permission of instructor
Rationale: Now that we have two pure undergraduate courses, the prerequisites can be listed.

Effective Term: Summer 2012

8. Modify the following course prerequisites:
HSCF 4040 Personal Fitness Training
Prerequisite: HP/FM majors only and permission of instructor HSCF 3005 and HSCF 3200 or permission of instructor

Rationale: Now that we have two pure undergraduate courses, the prerequisites can be listed.

Effective Term: Summer 2012

9. Modify the following BHS Track of Study

Track Four: Human Performance & Fitness Management
BIOL 2081 - Human Anatomy and Physiology I 4
BIOL 2082 - Human Anatomy and Physiology II 4
HSCF 3005 Applied Musculoskeletal Anatomy and Kinesiology 3
HSCF 3200 Exercise Physiology 3
HSCA 3600 - Financial Management for Health-Related Organizations 3
HSCF 3710 - Worksite Wellness and Safety 3
HSCF 3500 - Applied Kinesiology and Biomechanics 3
HSCF 4010 - Evaluation and Prescription in Exercise and Sport 4
HSCF 4020 - Health and Fitness Entrepreneurship 3
HSCF 4030 - Health and Fitness Management 3
HSCF 4040 - Personal Fitness Training 3
SMED 5005U - Musculoskeletal Basis of Exercise 3
SMED 5060U - Physiological Foundations of Sport 3
SMED 5555U - Physical Activity in Disease Prevention / Treatment 3

Select one of the following Courses Sequences:
SMED 5090U - Nutritional Issues in Sports Medicine 3
SMED 5600U - Healthy Weight Mgmt & Body Comp 3

OR

SMED 5015U - Assessment and Evaluation of Musculoskeletal Injuries 3
SMED 5065U - Movement and Posture Assessment and Exercise 3

Electives (6 hours)
Effective Term: Summer 2012

C. Medical Laboratory Science (no items)
D. Nursing (no items)

E. Physical Therapy

Item 1 from the Department of Physical Therapy was discussed and the undergraduate portion approved by the committee. It is being submitted to the Graduate Curriculum Committee and therefore is marked "For Information Only" for the report to the Senate.

For Information Only:
1. Delete the following course
   RHAB 5100U/G - Neuromuscular Basis of Exercise (3-0-3)

   Rationale: Renumbering for SACS compliance.

Effective Term: Fall 2012

Items 2-3 from the Department of Physical Therapy were discussed and approved by the committee. They are being submitted to the Faculty Senate for approval.

2. Create the following course
   RHAB 4100 Neuroscience for the Rehabilitation Professions
   Prerequisites: BIOL 2081
   Description: Basic neuroanatomy, neurophysiology and neuropharmacology in the context of rehabilitation.

   Rationale: More general neuroscience content to better meet the requirements of graduate programs in physical therapy and occupational therapy than the presently structured course. Change of name of the course so that graduate programs will better understand the content of this course and that it meets their requirements.

Effective Term: Fall 2012

CURCAT:
Major Department: Physical Therapy
Can course be repeated for additional credit? no
Maximum number of credit hours: 3
Grading mode: normal
Instruction Type: lecture
Course Equivalent: RHAB 5100U
3. Modify the Program of Study for the Bachelor of Science in Rehabilitation Science

B. Major Field Courses

ITEC 1050 - Introduction to Computer Concepts and Applications
PSYC 1101 - Introduction to Psychology (if not taken in Core Area E)
PHYS 1111K Introductory Physics I
PHYS 1112K Introductory Physics I
COMM 2280 Speech Communication
RESP 2110 Medical Terminology
PSYC 3280 Abnormal Psychology
RHAB 4000 Application of Research to the Rehabilitation Professions
RHAB 4111 Pathophysiology for the Rehabilitation Professions 1
RHAB 4112 Pathophysiology for the Rehabilitation Professions 2
RHAB 5100U Neuromuscular Basis of Exercise
RHAB 4100 Neuroscience for the Rehabilitation Professions
SMED 5005U Musculoskeletal Basis of Exercise
HSCF 3005 Applied Musculoskeletal Anatomy and Kinesiology
SMED 5060U Physiological Foundations of Sport
HSCF 3200 Exercise Physiology
PUBH 5580U Health & Human Development

Effective Term: Fall 2012

F. Radiologic Sciences

*Items 1-38 from the Department of Radiologic Sciences were discussed and approved by the committee. They are being submitted to the Faculty Senate for approval.*

1. Create the following course:

RADS 2000 Terminology of Imaging and Radiologic Sciences 1-0-1
Prerequisite: ENGL 1101 and MATH 1111
Description: Exploration of medical terms related to Radiologic Sciences. Also includes terminology and track specific content related to radiologic sciences.

Rationale: This elective course introduces students to various specializations within the field of Radiologic Sciences. Because students must choose between five tracks within Imaging and Radiologic Sciences, a course that introduces terminology and track specific information may help them choose a specific area of study.

Effective Term: Fall 2012

CURCAT
Major Department: Radiologic Sciences
Can course be repeated for additional credit? No
Maximum number of credit hours: 1
2. Create the following course:
RADS 4800 Research Methodologies in Radiologic Sciences 2-0-2
Prerequisite: MATH 2200 and HLPR 2000. Open only to majors
Description: Application of quantitative and qualitative approaches to research issues specific to the Radiologic Sciences. Topics covered include development of research questions, study design, methodology, data collection and analysis.
Rationale: The faculty determined that students needed more exposure to research methodologies, design, and evaluation. This course addition is part of the curricular restructuring in Radiologic Sciences. This course partially replaces RADS 4430 Professional Practice Seminar that is being deleted from the Program of Study.
Effective Term: Fall 2012
CURCAT:
Major Department: Radiologic Sciences
Can Course be repeated for additional credit? No
Maximum Number of Credit Hours: 2
Grading Mode: Normal
Instruction Type: Lecture
Course Equivalent: RADS 4430

3. Create the following course:
RADS 3080 Professional Interactions 0-3-1
Prerequisite: RADS 3000
Description: A seminar focused on professional interactions in Radiologic Sciences.
Rationale: This course includes a portion of the content currently in RADS 4430, which is being removed from the Program of Study.
Effective Term: Fall 2012
CURCAT:
Major Department: Radiologic Sciences
Can Course be repeated for additional credit? No
Maximum Number of Credit Hours: 1
Grading Mode: Normal
Instruction Type: Seminar
Course Equivalent: RADS 4430
4. Create the following course:
   RADS 3112 Introduction to Computed Tomography 1-0-1
   Prerequisite: Admission to major
   Description: An overview of Computed Tomography technology, computer reconstructions algorithms, and clinical application.

   Rationale: This course addition is part of the curricular restructuring in Radiologic Sciences and is driven by new accreditation requirements.

   Effective Term: Fall 2012

   CURCAT:
   Major Department: Radiologic Sciences
   Can Course be repeated for additional credit? No
   Maximum Number of Credit Hours: 1
   Grading Mode: Normal
   Instruction Type: Lecture
   Course Equivalent: None

5. Modify the following course prerequisites:
   RADS 4112 ADVANCED IMAGING IN CT Computed Tomography 3-0-3
   Prerequisite: RADS 3090 and RADS 3112 or permission of instructor. or department and

   Rationale: The content in the new course, RADS 3112 lays the foundation for this course.

   Effective Term: Summer 2013

6. Delete and replace the following course number, modify course title
   RADS 4415 Radiography Synthesis Seminar 0-3-1
   Prerequisite: RADS 3060, RADS 3073, RADS 3150, and RADS 4090
   Prerequisite or Corequisite: RADS 4163
   Discussion of theoretical concepts of radiography as they relate to practice.

   Rationale: This course no longer is coupled as a seminar to RADS 4163 and needs its own number.

   Effective Term: Fall 2012

   CURCAT
   Course equivalent: RADS 4163S
7. Modify the following course hours:
RADS 4164 Clinical Education IV 0-20-3 0-24-5

Rationale: Because of the re-sequencing of the curriculum, this course will have additional requirements.

Effective Term: Summer 2013

8. Modify the following course:
RADS 3071 Imaging and Radiation Procedures I 3-2-3
Prerequisite: Open to majors in radiologic sciences.
Description: Procedures involving the chest, abdomen, bony thorax, and visceral organs requiring the use of contrast media, including spatial relationships, and pathology. Emphasis on equipment manipulation, and quality evaluation of radiographic examinations.

Rationale: This modification is needed due to programmatic changes in the radiography curriculum sequence.

Effective Term: Fall 2012

9. Modify the following course:
RADS 3072 Imaging and Radiation Procedures II 3-2-3
Prerequisite: RADS 3071
Description: Procedures involving extremities, shoulder girdle, and pelvic girdle, vertebral column, including chest and abdomen, and pelvic girdle, vertebral column, including chest and abdomen, and visceral organs requiring the use of contrast media, spatial relationships, pathology, equipment manipulation, and quality evaluation of radiographic examinations and medical terminology.

Rationale: This modification is needed due to programmatic changes in the radiography curriculum sequence.

Effective Term: Fall 2012

10. Modify the following course description and hours:
RADS 3073 Imaging and Radiation Procedures III 3-2-3 2-2-2
Prerequisite: RADS 3072
Description: Procedures involving vertebral column, bony thorax, pelvic girdle, facial bones, and cranium, and heart, breast, and reproductive organs. Includes the chest, abdomen, and visceral organs requiring the use of contrast media, including spatial relationships, and pathology. Emphasis on equipment manipulation, and quality evaluation of radiographic examinations.

Rationale: This modification is needed due to programmatic changes in the radiography curriculum. Hours removed to become new course RADS 3074.
11. Create the following course:
RADS 3074 Imaging and Radiation Procedures IV 1-1-1
Prerequisite: RADS 3073.
Description: Procedures involving reproductive organs and facial bones including spatial relationships, pathology, equipment manipulation, and quality evaluation of radiographic examinations.

Rationale: This course is a redistribution of course credit hours from RADS 3073 as part of the re-sequencing of curriculum.

Effective Term: Fall 2012

CURCAT:
Major Department: Radiologic Sciences
Can Course be repeated for additional credit? No
Maximum Number of Credit Hours: 1
Grading Mode: Normal
Instruction Type: Lecture/Lab
Course Equivalent: None

12. Modify the following course prerequisites:
RADS 3190 Principles of Radiation Therapy 3-0-3
Prerequisite: permission of instructor or department and RADS 3000.

Rationale: Content covered in RADS 3000 is not foundational to the understanding of theory in RADS 3190.

Effective Term Fall 2012

13. Modify the following course description:
RADS 4201 Radiation Oncology I 3-0-3
Prerequisite: permission of instructor or department
Prerequisite or corequisite RADS 3190
Description: An introduction to carcinogenesis and treatment of neoplasia. Emphasis is placed on neoplastic diseases occurring in the respiratory, gastrointestinal, reproductive/genitourinary systems and breast.

Rationale: This modification is needed in order to reflect redistribution of course content.

Effective Term Fall 2012
14. **Modify the following course description:**
RADS 4202 Radiation Oncology II
Prerequisite: RADS 4201
Description: A study of neoplastic disease and interventions related to the reproductive, head and neck, breast, lymphoreticular, skeletal, integumentary, endocrine and central nervous systems.

**Rationale:** This modification is needed in order to reflect redistribution of course content.

**Effective Term Fall 2012**

15. **Modify the following course hours:**
RADS 4240 Radiation Therapy Physics
Prerequisite: permission of instructor or department and RADS 3090

**Rationale:** Laboratory experience is no longer a part of this course.

**Effective Term Fall 2012**

16. **Modify the following course hours:**
RADS 4305 Radiation Therapy Clinical Education V
Prerequisite: Permission of instructor or department and RADS 4304.

**Rationale:** Clinical hours will be reduced to accommodate additional theory offered in the new Introduction to CT didactic course.

**Effective Term Fall 2013**

17. **Delete and replace the following course number, modify title and prerequisites:**
RADS 4304S 4307 Radiation Therapy Synthesis Seminar
Prerequisite: RADS 4280 AND RADS 4260
Corequisite or Prequisite: RADS 4304 or permission of instructor
Description: Discussion of theoretical concepts of radiation therapy as they relate to practice.

**Rationale:** This course is no longer coupled to RADS 4304 as a seminar and needs its own number.

**Effective Term Fall 2012**

**CURCAT**
Course Equivalent: RADS 4304S
18. **Delete and replace the following course number, modify prerequisite:**

   **RADS 4305S 4308 Radiation Therapy Seminar**
   
   **Prerequisite:** RADS 4307
   
   **Prerequisite or Corequisite** RADS 4305
   
   **Description:** Discussion of theoretical concepts of radiation therapy.
   
   **Rationale:** This course is no longer coupled to RADS 4305 as a seminar and needs its own number.
   
   **Effective Term:** Fall 2012

   **CURCAT**
   
   **Course Equivalent:** RADS 4305S

19. **Modify the following course prerequisite:**

   **RADS 3301 Radiation Therapy Clinical Education I**
   
   **Prerequisite:** Permission of instructor or department and RADS 3195 formal admission into the radiation therapy track.
   
   **Rationale:** The laboratory component of RADS 3195 is designed to prepare the student to be successful in RADS 3301.
   
   **Effective Term:** Fall 2012

20. **Create the following course:**

   **RADS 3195 Radiation Therapy Procedures**
   
   **Prerequisite:** RADS 3000
   
   **Description:** Introduction to principles of patient simulation and treatment with emphasis upon radiation therapy equipment operation and utilization.
   
   **Rationale:** This course will address content requirements established in the practice standards for a radiation therapist. Additionally, completion of this course will prepare students for radiation therapy clinical education. This course will replace RADS 3071 in the radiation therapy track program of study.
   
   **Effective Term:** Summer 2012

   **CURCAT**
   
   **Major Department:** Radiologic Sciences
   
   **Can course be repeated for additional credit?** No
   
   **Maximum number of Credit Hours:** 3
   
   **Grading Mode:** Normal
   
   **Instruction Type:** Lecture/Lab
   
   **Course Equivalent:** RADS 3071
21. Reactivate and Modify the following course hours:
   RADS 3510 Nuclear Medicine Instrumentation  3-2-4 1-0-1
   Prerequisite: RADS 3501
   Description: Principles of radiation detection equipment and instrumentation employed in nuclear medicine procedures. Topics include detection systems, QC/QA, collimation, tomography, and computer applications.
   
   Rationale: This course is in the catalog but has not been taught recently as content of this course was included in RADS 4540, Nuclear Medicine Physics and Instrumentation. The content is being separated as a single course. The new course hours reflect this change.
   
   Effective Term: Fall 2012

22. Modify the following course title, description, hours, and prerequisites:
   RADS 4540 Nuclear Medicine Physics and Instrumentation  3-2-4 3-1-3
   Prerequisite: RADS 3501, RADS 3090, RADS 3503 and RADS 3510
   Description: Topics include decay modes, half-life, radiation interactions, radiation measurement and the principles of radiation detection equipment and instrumentation as applied to Nuclear Medicine Imaging. Topics include detection systems, QC/QA, collimation, tomography, and computer applications.
   
   Rationale: This modification is needed due to programmatic accreditation changes in the nuclear medicine curriculum.
   
   Effective Term: Fall 2012

23. Modify the following course hours and prerequisites:
   RADS 3532 Nuclear Medicine Clinical Education II  0-20-2 0-24-3
   Prerequisite: RADS 3531, RADS 3503, RADS 3520
   
   Rationale: Additional competencies are required at this stage of clinical education.
   
   Effective Term: Fall 2012

24. Modify the following course hours and prerequisites:
   RADS 4533 Nuclear Medicine Clinical Education III  0-20-2 0-24-3
   Prerequisite: RADS 3532.
   
   Rationale: Restructuring of curriculum requires more clinical competencies.
   
   Effective Term: Fall 2012
25. Create the following course:
   **RADS 3600 – Introduction to Sonography**  
   3-0-3  
   Prerequisite: Formal admission to the Sonography Track or permission of instructor or department.  
   Description: Introduction to specialties, theoretical concepts, standards and practices related to diagnostic medical sonography.  
   Rationale: The creation of this course content will address content standard for diagnostic medical imaging related to sonography. It will provide an overview of both the profession and the program. Additionally, completion of this course will prepare students to be more aware of professional and programmatic expectations. This course will replace RADS 3071 in the sonography track program of study.  
   **Effective Term:** Fall 2012  
   **CURCAT:**  
   Major Department: Radiologic Sciences  
   Can Course be repeated for additional credit? No  
   Maximum Number of Credit Hours: 3  
   Grading Mode: Normal  
   Instruction Type: Lecture  
   Course Equivalent: RADS 3071

26. Create the following course:  
   **RADS 3604 Sonographic Theory IV**  
   3-1-3  
   Prerequisite: RADS 3603, formal admission to the Sonography Track or permission of instructor or department.  
   Description: Continuation of Sonographic Theory III.  
   Rationale: The creation of this course content permits the sonography track to continue to discuss theoretical concepts of gynecological, obstetrical, invasive and advanced scanning procedures and techniques.  
   **Effective Term:** Fall 2012  
   **CURCAT:**  
   Major Department: Radiologic Sciences  
   Can Course be repeated for additional credit? No  
   Maximum Number of Credit Hours: 3  
   Grading Mode: Normal  
   Instruction Type: Lecture/Lab  
   Course Equivalent: NA
27. **Modify the following course description and hours:**
   RADS 3651 Sonographic Physics I 3-0-1-3
   Prerequisite: PHSC 1211/1211L or PHYS 1111K or permission of instructor or department.
   Description: An introduction to ultrasound **instrumentation**, propagation principles and interactions.

   **Rationale:** The course description and credit hours have been modified to include the discussion of ultrasound instrumentation. Thus, requiring lab hours to demonstrate use of ultrasound equipment.

   **Effective Term:** Spring 2013

28. **Modify the following course description and hours:**
   RADS 3652 Sonographic Physics II 3-0-1-3
   Prerequisite: RADS 3651 or permission of instructor or department.
   Description: Continuation of RADS 3651 to include ultrasound instrumentation, propagation principles and interactions and Doppler Physics.

   **Rationale:** The course description and credit hours have been modified to include the continued discussion of ultrasound instrumentation. Thus, requiring lab hours to demonstrate use of ultrasound equipment.

   **Effective Term:** Summer 2013

29. **Modify the following course hours:**
   RADS 3761 Cardiovascular Clinical Education I 0-20-2 0-24-3
   Prerequisite or corequisite: RADS 3772

   **Rationale:** Curriculum is being resequenced and additional clinical competencies will be added to this course. To accommodate the newly required competencies, an additional clinic hour is needed.

   **Effective Term:** Fall 2012

30. **Modify the following course hours:**
   RADS 3762 Cardiovascular Clinical Education II 0-20-2 0-24-3
   Prerequisite or corequisite: RADS 3761

   **Rationale:** Curriculum is being resequenced and additional clinical competencies will be added to this course. To accommodate the newly required competencies, an additional clinic hour is needed.

   **Effective Term:** Fall 2012
31. **Modify the following course hours:**  
RADS 4763 Cardiovascular Clinical Education III  
Prerequisite or corequisite: RADS 3750, RADS 3762  

_Rationale:_ Curriculum is being resequenced and additional clinical competencies will be added to this course. To accommodate the newly required competencies, an additional clinic hour is needed.  

_Effective Term:_ Fall 2012

32. **Modify the following course hours:**  
RADS 4764 Cardiovascular Clinical Education IV  
Prerequisite or corequisite: RADS 4763  

_Rationale:_ New curriculum sequencing is being put in place. This necessitates the need for a change in the prerequisite. Additional clinical competencies will be added to this course. To accommodate the newly required competencies, an additional clinic hour is needed.  

_Effective Term:_ Fall 2012

33. **Modify the following course hours:**  
RADS 4765 Cardiovascular Clinical Education V  
Prerequisite or corequisite: RADS 4764  

_Rationale:_ Curriculum is being resequenced and additional clinical competencies will be added to this course. To accommodate the newly required competencies, an additional clinic hour is needed.  

_Effective Term:_ Fall 2012

34. **Modify the following course title and prerequisites:**  
RADS 3771 Introduction to Cardiovascular Technology-Science  
Prerequisite: Formal admission to the cardiovascular/ interventional science track.  

_Rationale:_ Change in verbiage more appropriately matches accreditation and curriculum standards.  

_Effective Term:_ Fall 2012

35. **Create the following course:**  
RADS 3775 Advanced Patient Care and Monitoring  
Prerequisites or corequisite: RADS 3772, RADS 3050, RADS 3090  
Description: Indications for diagnostic and therapeutic cardiovascular procedures and an analysis of treatment modalities. Caring for the
cardiovascular procedural patient, pre, intra, and post procedure are emphasized.

Rationale: Curriculum is being restructured to streamline and minimize overlap in content to meet accreditation standards. Required content from RADS 3750 and RADS 4750 will included in this course.

Effective Term: Fall 2012

CURCAT:
Major Department: Radiologic Sciences
Can course be repeated for additional credit? No
Maximum Number of Credit Hours: 4
Grading Mode: Normal
Instruction Type: Lecture/Lab
Course Equivalent: No course equivalent

36. Create the following course:
RADS 4790 Cardiovascular Fluoroscopy 2-0-2
Prerequisite or corequisite: RADS 3090
Description: Study of fluoroscopic equipment to include physics concepts and radiation safety practices.

Rationale: Accreditation standards require a course specific to fluoroscopy for cardiovascular interventional science.

Effective Term: Fall 2012

CURCAT:
Major Department: Radiologic Sciences
Can Course be repeated for additional credit? No
Maximum number of credit hours: 2
Grading Mode: Normal
Instruction Type: Lecture
Course Equivalent: No course equivalent

37. Modify the following program:

PROGRAM FOR THE DEGREE OF BACHELOR OF SCIENCE IN RADIOLOGIC SCIENCES
A. General Requirements (Core Areas A, B, C, D.2.B., and E) 42 hours
Core Area F .................................................................................................................. 18 hours
BIOL 2081 - Human Anatomy and Physiology I
BIOL 2082 - Human Anatomy and Physiology II
MATH 1113—Pre-Calculus
HLPR 2000
Approved 4 Credit hours of Guided-Electives
One of the following:
PHSC 1211/1211L - Physical Environment and Lab
PHYS 1111K - Introductory Physics I
Physical Education .................................................... 3 hours

B. Major Field Courses .................................................. 26-20 hours
HLPR 2000 - Research in Health Professions
RADS 3000 - Introduction to Radiologic Sciences
RADS 3050 - Patient Care and Interactions
RADS 3080 - Professional Interactions
RADS 3071 - Imaging and Radiation Procedures I
RADS 3080 - Professional Interactions
RADS 3100 - Medical Communication Skills
RADS 3200 - Imaging Pathology
RADS 3450 - Leadership in Health Care
RADS 3451 - Leadership Practicum
RADS 4410 - Cross Sectional Anatomy
RADS 4430 - Professional Practice Seminar
RADS 4800 - Research Methodologies in Radiologic Sciences
RADS 4450 - Radiology Management and Leadership - Radiologic Sciences Management
a. Radiography Track .................................................... 40-46 hours
   RADS 3060 - Principles of Image Formation and Evaluation
   RADS 3071 - Imaging and Radiation Procedures I
   RADS 3072 - Imaging and Radiation Procedures II
   RADS 3073 - Imaging and Radiation Procedures III
   RADS 3074 - Imaging and Radiation Procedures IV
   RADS 3090 - Introduction to Radiation Physics
   RADS 4112 Introduction to Computed Tomography
   RADS 3150 - Radiobiology and Radiation Protection
   RADS 3161 - Radiography Clinical Education I
   RADS 3162 - Radiography Clinical Education II
   RADS 4050 - Quality Management in Radiography
   RADS 4090 - Radiographic Physics
   RADS 4163 - Radiography Clinical Education III
   RADS 4463S 4415 - Radiography Synthesis Seminar
   RADS 4164 - Radiography Clinical Education IV
   RADS 4420 - Senior Radiography Seminar
   One of the following pairs:
   RADS 4111 - Advanced Imaging in MRI and RADS 4171 - Magnetic Resonance Clinical Education
   or RADS 4112 - Advanced Imaging in CT and RADS 4172 - Computed Tomography Clinical Education
   or RADS 4113 - Advanced Imaging in Mammography and RADS 4173 - Mammography Clinical Education

Total Semester Hours for Nuclear Medicine Track 129 hours

**Nuclear Medicine students must complete a general chemistry course. This may be taken as part of the science requirements in Area D or as the approved a guided elective in Area F.

**Sonography students must complete a general biology course. This may be taken as part of the science requirement in area D or as the approved a guided elective in area F.

e. Cardiovascular/Interventional Science Track 40 46 hours
RADS 4751 - Emergency Care
RADS 4752 - Physiologic Monitoring and Recording
RADS 4764 - Cardiovascular Clinical Education IV
RADS 4765 - Cardiovascular Clinical Education V
RADS 4771 - Cardiovascular Synthesis
RADS 4772 - Cardiovascular Seminar
RADS 4790 - Cardiovascular Fluoroscopy

Total Semester Hours for Cardiovascular/Interventional Science Track 129 hours

Note: Change to RADS 4450 -Radiology-Management & Leadership Radiologic Sciences Management are necessary to update the program of study to match a previously approved change of course title for RADS 4450 as it appears in the current catalog.

Effective date: Fall 2012

38. Modify the following program:

PROGRAM FOR THE DEGREE OF BACHELOR OF SCIENCE IN RADIOLOGIC SCIENCES - SPECIAL OPTIONS

A. General Requirements (Core Areas A, B, C, D.2.B., and E) 42 hours
   Core Area F ................................................................. 18 hours
   BIOL 2081 - Human Anatomy and Physiology I
   BIOL 2082 - Human Anatomy and Physiology II
   MATH 1113—Pre-Calculus
   HLPR 2000
   Approved 4 Credit hours of Guided-Electives
   One of the following:
   PHSC 1211/1211L - Physical Environment and Lab
   PHYS 1111K - Introductory Physics I
   Physical Education .......................................................... 3 hours

B. Major Field Courses ...................................................... 66 hours
   a. Radiation Therapy
      HLPR 2000—Research in Health Professions
      RADS 3000 - Introduction to Radiologic Sciences
      RADS 3080 - Professional Interactions
      RADS 3050 - Patient Care and Interactions
      RADS 3060 - Principles of Image Formation and Evaluation
      RADS 3090 - Introduction to Radiation Physics
      RADS 3112 - Introduction to Computed Tomography

RADS 4202 – Radiation Oncology II
RADS 4240 – Radiation Therapy Physics
RADS 4260 – Treatment Planning
RADS 4280 – Quality Management in Radiation Therapy
RADS 4303 – Clinical Education III
RADS 4304 – Clinical Education IV
RADS 4305 – Clinical Education V
RADS 4308 4307 - Radiation Therapy Synthesis Seminar
RADS 4305S 4308 - Radiation Therapy Seminar
RADS 4410 - Cross-Sectional Anatomy
RADS 4430 – Professional Practice Seminar
One of the following:
RADS 3450 – Leadership in Healthcare and RADS 3451 – Leadership Practicum
or
RADS 4450 – Radiography – Radiologic Sciences Management and Leadership
RADS 4800 – Research Methodologies in Radiologic Sciences

b. Nuclear Medicine
HLPR 2000 – Research in Health Professions
RADS 3000 – Introduction to Radiologic Sciences
RADS 3050 – Patient Care and Interactions
RADS 3080 – Professional Interactions
RADS 3090 – Introduction to Radiation Physics
RADS 3100 – Medical Communication Skills
RADS 3150 – Radiobiology and Radiation Protection
RADS 3112 Introduction to Computed Tomography
RADS 3200 – Imaging Pathology
RADS 3450 – Leadership in Healthcare
RADS 3451 – Leadership Practicum
RADS 3501 – Principles of Nuclear Medicine I
RADS 3502 – Principles of Nuclear Medicine II
RADS 3503 – Principles of Nuclear Medicine III
RADS 3510 - Nuclear Medicine Instrumentation
RADS 3520 – Radiopharmacy and Radiochemistry
RADS 3531 – Clinical Education I
RADS 3532 – Clinical Education II
RADS 4112 – Advanced Imaging in CT
RADS 4410 – Cross-Sectional Anatomy
RADS 4430 – Professional Practice Seminar
RADS 4533 – Clinical Education III
RADS 4534 – Clinical Education IV
RADS 4535 – Clinical Education V
RADS 4540 - Nuclear Medicine Physics and Instrumentation
RADS 4561 - Nuclear Medicine Synthesis
RADS 4562 - Nuclear Medicine Seminar
RADS 4570 - Introduction to PET
One of the following:
   RADS 3450 - Leadership in Healthcare and RADS 3451 - Leadership Practicum
   or
RADS 4450 - Radiology Management and Leadership
RADS 4800 - Research Methodologies in Radiologic Sciences

Rationale: The changes in Area F reflect the new Area F for radiologic sciences by the Board of Regents of the University System of Georgia. The programs of study changes are needed due to curriculum changes in the degree.

Note: Change to RADS 4450 - Radiology Management & Leadership Radiologic Sciences Management are necessary to update the program of study to match a previously approved change of course title for RADS 4450 as it appears in the current catalog.

Effective date: Fall 2012

G. Respiratory Therapy (no items)

III. College of Liberal Arts
   A. Art, Music, & Theatre (no items)

   B. Criminal Justice, Social, & Political Science

   Items 1-2 from the Department of Criminal Justice, Social and Political Science were discussed and approved by the committee. They are being submitted to the Faculty Senate for approval.

1. Create the following course:
   LWSO 3990 - Special Topics in Law and Society 3-0-3
   Prerequisite: Varies with topic
   Description: Topics and issues not available in other courses. May be repeated as topics vary

   Rationale: This permits us to add to the number of LWSO-specific courses as we have faculty available to create new courses. It also allows other relevant 3990 courses in POLS and CJRU to be cross-listed with LWSO, thus increasing the number of courses for the LWSO major.

   Effective Term: Fall 2012

   CURCAT: Major Department: Criminal Justice, Social and Political Science
   Can course be repeated for additional credit? Yes
Maximum Number of Credit Hours: Six  
Grading Mode: Normal  
Instruction Type: Lecture  
Course Equivalent: N/A

2. Create the Following Course:  
LWSO/POLS/CRJU 4172 Terrorism and National Security Law 3-0-3  
Prerequisites: CRJU/POLS 2200 or POLS 1100; at least one of the following courses: POLS 5500U or POLS 3150 or POLS 3160  
Description: Exploration of the role of law in American national security policy, with a focus on statutes and United States Supreme Court decisions related to terrorism and enemy detainee cases.  
Rationale: This course will replace POLS 5291U Constitutional Law of American Foreign Policy. This course will be more focused on national security and terrorism law than its predecessor, which is both more relevant and interesting to students today given present realities.  
Effective term: Fall 2012  
CURCAT:  
Major Department: Criminal Justice, Social and Political Science  
Can course be repeated for additional credit? No  
Maximum Number of Credit Hours: Three  
Grading Mode: Normal  
Instruction Type: Lecture  
Cross-listed with: LWSO 4172, CRJU 4172, POLS 4172  
Course Equivalent: POLS 5291U

Item 3 from the Department of Criminal Justice, Social and Political Science was discussed and the undergraduate portion approved by the committee. It is being submitted to the Graduate Curriculum Committee and therefore is marked “For Information Only” for the report to the Senate.

For Information Only:  
3. Delete the following course:  
POLS 5291 U/G Constitution Law of American Foreign Policy 3-0-3  
Rationale: The relevant content has been incorporated into the requested new course on national security and terrorism law (POLS 4172).  
Effective term: Fall 2012
Items 4-6 from the Department of Criminal Justice, Social and Political Science were discussed and approved by the committee. They are being submitted to the Faculty Senate for approval.

4. Modify the Minor in Legal Studies:

Legal Studies........................................................................................................... 18 hours
POLS 3180, CRJU/POLS 5500U and any four of the following:
HSSC 3110, LWSO/POLS 4190, POLS 3150, POLS 3160, POLS 3170, POLS 3190, POLS 4150, POLS 4170, POLS 4171, POLS 4172, POLS 4180
CRJU/POLS 5520U, POLS 5230U, CRJU 4500, or CRJU 4510

Rationale: Reflects changes in course numbers, deletions of some courses, and/or recent creation of new courses.

Effective term: Fall 2012

5. Modify the following Program of Study:

BACHELOR OF ARTS IN LAW AND SOCIETY
B. Major Field Courses ................................................................. 36 hours
In addition to the required courses, select six courses in one of three specialized tracks:
Required Courses
CRJU 3100 - Research Methods or POLS 4950 - Political Research Methods
CRJU/POLS 5500U - Law and Legal Process
POLS 4171 - Constitutional Law Civil Liberties
POLS 3150 - American Supreme Court
LWSO 2000 - Introduction to Law and Society
ENGL 4700 - Advanced Composition*
ENGL 5730 - Rhetoric*
* Substitutions possible in consultation with program coordinator.

Track One: Government and Judicial Studies
CRJU 3110 - Critical Theory of Criminal Justice
CRJU 3140 - Political Crimes
CRJU 3160 - White Collar and Org. Crime
CRJU 3170 - Criminal Justice Administration
CRJU 4500 - Advanced Criminal Evidence
CRJU 4510 - Advanced Criminal Law
CRJU 4900 - Directed Research in Criminal Justice
CRJU 5130U - Political Terrorism
ECON 3100 - Multinational Economic Enterprise
ECON 3450 - Environmental Economics
ECON 4150 - Money and Capital Markets
ECON 4410 - Regional Economies
ECON 4460 - Economic Analysis of the Law
ECON 4500 — Public Finance  
ECON 4550 — Public Choice  
ECON 5300U — Money and Banking  
ECON 5400U — Economics of Labor  
ENGL 3720 — Business and Technical Communications  
ENGL 5740U — Technical Editing  
ENGL 5800U — Advanced Grammar  
HSCC 3110 — Legal Issues in the Health Care Environment  
HIST 3740 — Women in American History  
HIST 5540U — Topics in U.S. Foreign Relations  
HIST 5565U — Topics in the History of American Reform  
LWSO/POL 4190 — Environmental Law and Regulations  
POLS 3150 — American-Supreme Court  
POLS 3160 — American Judicial Politics and Strategies  
POLS 3170 — Constitutional Law and the Federal System  
POLS 3190 — American Military Law  
POLS 3980 — African-American and the American Political System  
POLS 4171 — Constitutional Law and Civil Liberties  
CRJU/LWSO/POL 4172 — Terrorism and National Security Law  
* Numerous ECON Courses are Available for this Track; Check With Program Coordinator

Rationales:  
(1) Updating the program to reflect changes made in several courses to add more appropriate courses and add delete inappropriate courses.

(2) POLS 3150 American Supreme Court should be mandatory for all, replacing POLS 4171 Constitutional Law and Civil Liberties, which has been shifted to Track One. POLS 4171 is not needed for Tracks Two and Three, and students in those tracks would not have taken the (recently changed) prerequisites for POLS 4171. But all L&S majors should have a firm knowledge of the United States Supreme Court.

(3) Alternative ENGL courses were needed among the Major Field Courses given how the preferred ENGL courses fill quickly each semester. However, they are not appropriate for Track One “Government and Judicial Studies.”

(4) Listing all of the appropriate ECON courses takes too much space. Students should consult with Law and Society Coordinator to determine if a desired ECON class will count.

(5) A general history of foreign policy class is too far afield. Note that POLS 5290U is not included either.

Effective Term: Fall 2012

6. Modify Program of Study for International Studies Minor
3. Two International Relations courses
ECON 3450 - Environmental Economics
ECON 4400 - Seminar in Third World Economics
ECON 5200U - International Trade
ECON 5310U - International Finance
HIST 5100U - Topics in Latin American History
HIST 5300U - History of Russian and East European Studies
HIST 5480U - Topics in European History
HIST 5540U - Topics in U.S. Foreign Policy
POLS 3210 - International Relations
POLS 5210U - International Law
POLS 5220U - Theory of International Relations
POLS 5230U - Constitutional Law of Foreign Policy
POLS 5250U - International Organizations
POLS 5260U - Media and Politics in Latin America
POLS 5280U - Seminar in Global Politics
POLS 5290U - American Foreign Policy
POLS 5270U - Intelligence and National Security Policy
POLS/CRJU 5130 - Political Terrorism

**Rationale:** Deletion of course.

**Effective term:** Fall 2012

C. Economics (For Information Only)

The Economics Department requests that these items be postponed until the November senate meeting because they have additional items to be presented in November, and believe all the items are best taken together. Therefore, all of Section C is marked "For Information Only" for the report to the Senate. Please continue on Page 44.

1. **Create the following course:**

   **ECON 3460 Economics of Immigration**

   **Prerequisite:** ECON 2105 or ECON 2106

   **Description:** Effects of immigration and immigration policy on labor markets, economic growth, education finance, health care finance, old-age retirement, enforcement costs, and federal, state, and local government finance. Focus is primarily on U.S. immigration.

   **Rationale:** Immigrants and immigration policy are the subject of regular public discourse and policy debate. Much of the discourse and debate centers on the economic effects of immigration on U.S. citizens, institutions, and government. This course will teach students to use the tools of economic analysis as a framework to inform the discussion of immigration using available data and research.
Effective Term: Fall 2012

CURCAT:
Major Department: Economics
Can course be repeated for additional credit? No
Maximum number of credits: 3
Grading Mode: Normal
Instruction Type: Lecture
Course equivalent: None

2. Delete the following courses:
ECON 5111U/G Economics of Entrepreneurship I 3-0-3
ECON 5112U/G Economics of Entrepreneurship II 3-0-3
ECON 5340U/G International Economics 3-0-3

Rationale: The 5000-level course numbers were used to make the course accessible to students in the MALPS program. These courses have not been taken by any graduate students and are now being converted to 4000-level courses.

Effective Term: Fall 2012

3. Create the following course:
ECON 4111 Economics of Entrepreneurship I 3-0-3
Prerequisites: ECON 3210 and ECON 3230 or permission of instructor
Description: A project based class focusing on the application of economic principles to real-world business formation and management. This course provides instruction in both the legal and logistical requirements of starting a business and serves as a forum for development of business ideas and practices.

Rationale: See Item 2.

Effective Term: Fall 2012

CURCAT:
Major Department: Economics
Can course be repeated for additional credit? No
Maximum number of credits: 3
Grading Mode: Normal
Instruction Type: Lecture
Course Equivalent: ECON 5111U

4. Create the following course:
ECON 4112 Economics of Entrepreneurship II 3-0-3
Prerequisites: ECON 3210 and ECON 3230 or permission of instructor
Description: Continuation of Economics and Entrepreneurship I, this course will cover advanced business challenges including the financial requirements of starting businesses. Students will work in groups to develop a viable business plan that will be presented to local business owners for review.

Rationale: See Item 2.

Effective Term: Fall 2012

CURCAT:
Major Department: Economics
Can course be repeated for additional credit? No
Maximum number of credits: 3
Grading Mode: Normal
Instruction Type: Lecture
Course Equivalent: ECON 5112U

Effective Term: Fall 2012

5. Create the following course:
ECON 4340 International Economics 3-0-3
Prerequisite: ECON 2105
Description: International monetary relations, different exchange rate systems, the balance of payments adjustment, and a survey of major international financial institutions.

Rationale: See Item 2.

Effective Term: Fall 2012

CURCAT:
Major Department: Economics
Can course be repeated for additional credit? No
Maximum number of credits: 3
Grading Mode: Normal
Instruction Type: Lecture
Course Equivalent: ECON 5340U

Effective Term: Fall 2012

6. Delete the following courses:
ECON-5010U/G Special Topics in Economics
ECON-5020U/G Special Topics in Economics
ECON-5200U/G International Trade
ECON-5300U/G Money and Banking
ECON-5310U/G International Finance
ECON 5400U/G Economics of Labor

Rationale: A variety of upper level economics courses were changed to 5000 level to support graduate programs. The demand for these courses at the graduate level never materialized.

Effective Term: Fall 2012

7. Recreate the following course:
   ECON 4010 Special Topics in Economics 3-0-3
   Prerequisite: ECON 2105
   Description: Upper-level courses not otherwise offered in the economics curriculum. Various substantive topics, theoretical issues and problems, with possibility to repeat with different topics. No more than two such courses counted in the minor.

   Rationale: See Item 6

   Effective Term: Fall 2012
   Major Department: Economics
   Can course be repeated for additional credit? Yes
   Maximum number of credits: 9
   Grading Mode: Normal
   Instruction Type: Lecture
   Course Equivalent: ECON 5010U

8. Recreate the following course:
   ECON 4020 Special Topics in Economics 3-0-3
   Prerequisite: ECON 2106
   Description: Upper-level courses not otherwise offered in the economics curriculum. Various substantive topics, theoretical issues and problems, with possibility to repeat with different topics. No more than two such courses counted in the minor.

   Rationale: See Item 6

   Effective Term: Fall 2012
   Major Department: Economics
   Can course be repeated for additional credit? y
   Maximum number of credits: 9
   Grading Mode: Normal
   Instruction Type: Lecture
   Course Equivalent: ECON 5020U
9. Recreate the following course:
ECON 3200 International Trade 3-0-3
Prerequisite: ECON 2106 or permission of instructor
Description: The economic importance and problems of international trade, including theories of international trade, the gains from trade, tariffs, and non-tariff barrier to trade, U.S. commercial policy, Economic integration, and trade policies of developing countries.
Rationale: See Item 6
Effective Term: Fall 2012
CURCAT:
Major Department: Economics
Can course be repeated for additional credit? No
Maximum number of credits: 3
Grading Mode: Normal
Instruction Type: Lecture
Course Equivalent: ECON 5200U

10. Recreate the following course:
ECON 3300 Money and Banking 3-0-3
Prerequisite: ECON 2105 or permission of instructor
Description: The study of governmental and corporate finance, with emphasis on fiscal and monetary policy, open-market operations, discount policy, and the functions and problems associated with central banking.
Rationale: See Item 6
Effective Term: Fall 2012
CURCAT:
Major Department: Economics
Can course be repeated for additional credit? No
Maximum number of credits: 3
Grading Mode: Normal
Instruction Type: Lecture
Course Equivalent: ECON 5300U

11. Recreate the following course:
ECON 4310 International Finance 3-0-3
Prerequisite: ECON 2105
Description: International monetary relations, different exchange rate systems, the balance of payments disequilibrium, and a survey of major international financial institutions, including IMF and the World Bank.
Rationale: See Item 6

Effective Term: Fall 2012

CURCAT:
Major Department: Economics
Can course be repeated for additional credit? No
Maximum number of credits: 3
Grading Mode: Normal
Instruction Type: Lecture
Course Equivalent: ECON 5310U

12. Recreate the following course:
ECON 3400 Economics of Labor 3-0-3
Prerequisite: ECON 2106
Description: Survey of labor economics and labor relations, organization and operation of American trade unionism, collective bargaining, economics of the labor market, wage theory and income distribution are included.

Rationale: See Item 6

Effective Term: Fall 2012

CURCAT:
Major Department: Economics
Can course be repeated for additional credit? No
Maximum number of credits: 3
Grading Mode: Normal
Instruction Type: Lecture
Course Equivalent: ECON 5400U

Effective Term: Fall 2012

13. Delete the following course:
ECON 5630U/G Economic History of the United States

Rationale: When HIST 3630 was changed back from a 5000 level course, the economics course was not changed at the same time. This course is taught by the history department with crosslisting for economics. The economics course numbering and description should be consistent with the history course for proper crosslisting.

Effective Term: Fall 2012

14. Recreate the following course, with modifications for consistency with HIST 3630, re-attach cross-listing with HIST 3630.
ECON 3630 Economic History of the United States 3-0-3
Prerequisites: HIST 1100 or POLS 1100 or HIST 2111 or HIST 2112
Description: Growth and development of economics institutions in the United States from the colonial period to the present with emphasis on the period since 1860. Developments in agriculture, industry, labor, transportation, and finance. Crosslisted as HIST 3630.

Rationale: See Item 13

Effective Term: Fall 2012

CURCAT:
Major Department: Economics
Can course be repeated for additional credit? No
Maximum number of credits: 3
Grading Mode: Normal
Instruction Type: Lecture
Cross-listed with: HIST 3630
Course Equivalent: ECON 5630U

15. Modify the following course:
ECON 4520 INTERNSHIP
V-V-(1-12) 3-0-3

Prerequisite: permission of instructor or department head
Description: Open to juniors or above. Applied economic setting using nonprofit agencies such as the Chamber of Commerce, as well as financial institutions and international businesses. Supervision by departmental instructors and agency officials. Students may use only three credit hours one internship as part of their Major Field Courses upper-division economics classes. Open to transient students only with permission of department head.

Rationale: The change to variable credit hours allows students to accept internship offers that may not fit neatly into the three-credit course. In cases where the internship is useful but does not require sufficient academic content, students may be allowed to do the internship for less than three credits. In cases where the necessary workload is well beyond three-credits of work, students may be allowed to earn more credits while using only three as part of the major field requirement. With the change to variable credit hours and with the course being repeatable, multiple course numbers are no longer required.

Effective Term: Fall 2012

CURCAT:
Major Department: Economics
Can course be repeated for additional credit? Yes
Maximum number of credits: 12
Grading Mode: Pass/Fail
Instruction Type: Practicum
16. Delete the following courses:
   ECON 4530 INTERNSHIP
   ECON 4540 INTERNSHIP

Rationale: With repeatable variable credit structure for ECON 4520, these are no longer needed.

Effective Term: Fall 2012

10. Make the following changes to the Economics Major

Track I: General Economics
B. Major Field Courses ...................................................... 33 hours
ECON 3050 - Intermediate Macroeconomics
ECON 3060 - Intermediate Microeconomics
ECON 3700 - Econometrics
ECON 4900 - Economic Methods and Senior Thesis
Twenty one credit hours drawn from at least three of the following categories:

Global
ECON 3100 - Multinational Economic Enterprises
ECON 4400 - Seminar in Third World Economic Development
ECON 4450 - Comparative Economics
ECON 3200 5200U - International Trade
ECON 4310 5310U - International Finance

Quantitative
ECON 3600 - Mathematical Economics
ECON 3800 - Quantitative Consumer Research

Applied
ECON 3470 - Economics of Health
ECON 3500 - Managerial Economics
ECON 4451 - Industrial Organization
ECON 4460 - Economic Analysis of the Law
ECON 3400 5400U - Economics of Labor

Financial
ECON 3230 - Finance
ECON 4100 - Financial Economics: Portfolio Analysis
ECON 4150 - Money and Capital Markets
ECON 3300 5300U - Money and Banking

Public Policy and Economic History
Internships and Specialized Courses
ECON 3950 - Research in Economics
ECON 3960 - Research in International Economics.
ECON 4520, 40, 40 - Internship (with permission of department head)(maximum of three credits one internship may count toward Major Field Courses degree)
ECON 5010, 20, 30 - Special Topics in Economics
ECON 4010, 4020, 5030U - Special Topics in Economics

C. Related Field Courses ................................................................................................. 9 hours
ITEC 1050 - Introduction to Computer Concepts or CSCI 1060 - Computer Concepts and Applications
Six credit hours of upper division courses from the following fields: anthropology, communication, economics, English (3720, 5710, 5740, 5750 only), geography, information technology, mathematics, philosophy, political science, psychology, or sociology.

D. Electives ..................................................................................................................... 18 hours

Track II: International Economics
The international track requires a language sequence in Area F and at least three credits earned toward the degree in an international study program. Students participating in the international track are expected to choose project, paper, and research topics related to international economics whenever possible.

B. Major Field Courses ................................................................................................. 33 hours
ECON 3050 - Intermediate Macroeconomics
ECON 3060 - Intermediate Microeconomics
ECON 3700 - Econometrics
ECON 4900 - Economic Methods and Senior Thesis
ECON 3200 - International Trade
ECON 4310 - International Finance
Fifteen credit hours drawn from among the following courses:
ECON 3100 - Multinational Economics Enterprises
ECON 3210 - Marketing
ECON 3220 - Management
ECON 3230 - Finance
ECON 3450 - Environmental Economics
ECON 3460 - Economics of Immigration
ECON 3470 - Economics of Health
ECON 3500 - Managerial Economics
ECON 3960 – Research in International Economics
ECON 4100 - Financial Economics: Portfolio Analysis
ECON 4150 - Money and Capital Markets
ECON 4400 - Seminar in Third World Economic Development
ECON 4450 – Comparative Economics
ECON 4500 - Public Finance
ECON 3300 5300U – Money and Banking

C. Related Field Courses ................................................................................................. 9 hours
ITEC 1050 - Introduction to Computer Concepts or CSCI 1060 - Computer Concepts and Applications
Six credit hours of upper division courses outside the economics discipline approved for the International Studies minor.
D. Electives ..................................................................................................................... 18 hours

Track III: Business Economics
B. Major Field Courses ............................................................................................. 33 hours
ECON 3050 - Intermediate Macroeconomics or ECON 3060 Intermediate Microeconomics
ECON 3210 – Marketing
ECON 3220 – Management
ECON 3230 – Finance
ECON 3500 – Managerial Economics
ECON 4111 5411U – Economics of Entrepreneurship I
ECON 3300 5300U – Money and Banking
Twelve credit hours drawn from among the following courses:
ECON 3050 - Intermediate Macroeconomics
ECON 3060 – Intermediate Microeconomics
ECON 3450 - Environmental Economics
ECON 3460 – Economics of Immigration
ECON 3470 - Economics of Health
ECON 3700 – Econometrics
ECON 3800 - Quantitative Consumer Research
ECON 4000 - Multinational Economic Enterprises
ECON 4100 - Financial Economics: Portfolio Analysis
ECON 4150 - Money and Capital Markets
ECON 4410 – Regional Economics
ECON 4450 – Comparative Economics
ECON 4451 - Industrial Organization
ECON 4500 - Public Finance
ECON 4520, 30, 40– Internship (with permission of department head)(maximum of three credits one internship may count toward Major Field Courses degree)
ECON 4112 5412U – Economics of Entrepreneurship II
ECON 3200 5200U – International Trade
ECON 4310 5310U – International Finance
ECON 3400 5400U – Economics of Labor
C. Related Field Courses ................................................................. 15 hours
ITEC 1050 - Introduction to Computer Concepts or CSCI 1150 Fundamental of the Internet and World Wide Web
COMM 2280 Speech Communication
Nine credit hours of upper division courses from among the following fields/courses:
COMM 3060 Public Relations
COMM 5050U Interpersonal Communication in the Workplace
ENGL 3720 Business and Technical Communication
ENGL 5710 Writing for the Non-Profit Sector
ENGL 5740 Technical Editing
ENGL 5750 Publication Design
HSCA 3600 Financial Management for Health-Related Organizations
HSCA 4201 Health Care Marketing
HSCA 4600 Principles of Human Resource Management
HSCA 4620 Principles of Management in Health Service Organizations
ITEC 3500 Database Administration
ITEC 3710 E-Commerce
POLS 4190/LWSO 4190 Environmental Laws and Regulations
PSYC 3000 Human Resource Development Skills
PSYC 5150U Conflict Resolution
PSYC 5200U Industrial and Organizational Psychology
PSYC 5300U Leadership and Group Dynamics
Any upper division economics courses (3000+) except for ECON 5150

D. Electives ....................................................................................... 12 hours
Total Semester Hours 123 hours
E. Regents' Test, university exit exam, and department exit exam

Effective Term: Fall 2012

D. History (no items)
E. Gender and Women's Studies (no items)

F. Languages, Literature, & Philosophy

Items 1-3 from the Department of Languages, Literature and Philosophy were discussed and approved by the committee. They are being submitted to the Faculty Senate for approval.

1. Modify the following course title:
PHIL 2030 Introduction to Ethics and Contemporary Moral Philosophy Introduction to Ethics and Moral Issues 3-0-3

Rationale: This phrase “moral issues” is clearer and more easily understandable to students than “contemporary moral philosophy” and this change reflects modern
philosophical usage in the majority of ethics texts from the past decade covering the various areas of applied ethics.

**Effective Term: Fall 2012**

2. **Create the following Course:**

   **PHIL 4500 Philosophy Practicum**

   **3-0-3**

   **Prerequisite:** 18 semester hours of 3000 level or above PHIL courses

   **Description:** Senior philosophy students are placed in leadership roles and complete a writing project for public presentation. Writing project topics, which may be interdisciplinary, will be negotiated during required periodic conferences with instructor. Other practicum activities may include philosophy-related internships or assisting philosophers with research-related projects.

   **Rationale:** This unique course will be required for the new philosophy major program proposed below and will provide opportunity for program assessment functions similar to other capstone courses. The course also focuses on training leadership skills such as teaching study sessions, tutoring students, and/or leading group discussions related to lower level courses as well as oral and written communication in public venues such as conference presentations, submission to journal(s), philosophy newsletter, creation of lectures for class presentation(s), and/or essays for graduate school applications. One emphasized goal will be to help the student see themselves not as a student, but as a teacher and a leader in philosophy. This course would provide the flexibility for using a variety of methods to achieve this worthy educational goal.

   **Effective Term:** Dependent on approval of major by Board of Regents

   **CURCAT:**

   **Major Department:** Languages, Literature, & Philosophy

   **Can the course be repeated for additional credit:** No

   **Maximum number of credit hours:** 3

   **Grading Mode:** Normal

   **Instructional Type:** Internship/Practicum

3. **Create the following Bachelor of Arts Program with a Major in Philosophy:**

   **Rationale:** The number of philosophy minors is growing. The program can be sustained with existing resources (i.e. no new philosophy positions are required and the upper level courses required for the major, except the one new course addition above, are already being delivered regularly within a two year rotation). The program is designed to be part of a double major allowing for a large number of free upper level electives thereby minimizing competition between programs. A program in philosophy directly contributes to the fulfillment of AASU's mission statement of “educating students in the liberal arts tradition...” The potential benefits for academics, retention, and growth are greater than the negligible financial risks.
Effective Term: Subject to approval by the Board of Regents

PROGRAM FOR THE DEGREE OF BACHELOR OF ARTS IN PHILOSOPHY

A. General Requirements
Core Areas A, B, C, D, and E .............................................................. 42 hours
Area F .......................................................................................... 18 hours
PHIL 2010 Introduction to Philosophy
PHIL 2030 Introduction to Ethics and Moral Issues
1002 level Foreign Language Course
Three additional 1000/2000 level courses
Physical Education .......................................................................... 3 hours

B. Major Field Courses ......................................................... 24 hours
Four Courses from:
PHIL 3110 Ancient Philosophy
PHIL 3120 Medieval Philosophy and the Rise of Humanism
PHIL 3130 Continental Rationalism and British Empiricism
PHIL 3140 Kant and the 19th Century
PHIL 3150 Twentieth Century Philosophy
Nine semester hours of PHIL courses at the 3000 level or above
PHIL 4500 – Philosophy Practicum

C. Related Field Courses ....................................................... 15 hours
Fifteen semester hours of courses at the 3000 level or above

D. Electives ........................................................................ 21 hours

Total Semester Hours 123 hours

E. Regents' Test and Exit Exam

Progress Requirements
Students must earn a grade of C or better in every course required for the major or minor.

G. Liberal Studies (no items)
H. Honors Program (no items)

IV. College of Science and Technology
A. Biology

*Items 1-6 from the Department of Biology were discussed and approved by the committee. They are being submitted to the Faculty Senate for approval.*

1. Modify the following course:
   BIOL 2020 SURVEY OF THE KINGDOMS PLANTAE AND FUNGI PLANT BIOLOGY 3-3-4
Prerequisite BIOL 1108 (minimum grade of C) or BIOL 1108H (minimum grade of C)

Course description: Phylogeny, morphology and ecology of plants, fungi, and lichens including prokaryotic and eukaryotic algae, bryophytes, extinct early land plants and their extant species and fossil records of ferns, gymnosperms and flowering plants. Evolution and diversity of plants, including comparative morphology, anatomy, physiology, growth and development, and reproduction. Plants will be examined at the cellular, organismal, and community levels. Laboratories may include field trips.

Rationale: Course curriculum now focuses entirely on the plant kingdom. Fungi are covered in BIOL 3800 (Mycology).

Effective Term: Fall 2012

2. Modify the following course:
BIOL 3200 PLANT TAXONOMY AND IDENTIFICATION OF FLOWERING PLANTS 4-7-4 3-4-4
Prerequisite: BIOL 2020 (minimum grade of C)
Taxonomic systems used in plant classification, dichotomous keys, phytography, concepts of taxa, and uses of herbaria. Characteristics of major vascular flowering plant families in the southeastern United States. Museum quality plant collection required. Will include Weekly field trips and trips to mountain regions and Florida.

Rationale: Course curriculum will expand to cover major plant groups, not just flowering plants. In addition, field trips will be local to take advantage of Savannah’s surrounding environment, resulting in less total lab hours required.

Effective Term: Fall 2012

3. Modify the following course:
BIOL 2010 MICROBIOLOGY 3-3-4
Prerequisite BIOL 1107 (minimum grade of C) or BIOL 1107H (minimum grade of C)
Genetics, classifications and methods of control of bacteria, fungi, protozoa and viruses, with introduction to medical, industrial and environmental microbiology (Not intended for pre-health professions students).

Rationale: The Biology Department offers two microbiology classes: BIOL 2275 and BIOL 2010. Because BIOL 1107 is the only pre-requisite for BIOL 2010, pre-nursing students have accidentally registered for the wrong microbiology class.

Effective Term: Fall 2012
4. Modify Program of Study for the Bachelor of Science in Biology

PROGRAM FOR THE DEGREE OF BACHELOR OF SCIENCE IN BIOLOGY

A. General Requirements
Core Areas A, B, C, D, and E ......................................................... 42 hours
Biology majors are required to take MATH 1113 in core area A and CHEM 1211, CHEM 1212 and MATH 2200 in core area D.

Area F ......................................................................................... 18 hours
BIOL 1107- Principles of Biology I or BIOL 1107H Honors Principles of Biology I
BIOL 1108- Principles of Biology II or BIOL 1108H Honors Principles of Biology II
BIOL 2010- Microbiology
BIOL 2400- Introduction to Cell and Molecular Biology
CHEM 2101- Organic Chemistry I
Physical Education ........................................................................ 3 hours

Track I: General Biology
B. Major Field Courses ................................................................. 35-40 hours
Required Courses (16 hours)
BIOL 2020- Survey of the Kingdoms: Plants and Fungi: Plant Biology
BIOL 3000- Cell Biology
BIOL 3700- Genetics
BIOL 4700- General Ecology
BIOL 4801- Senior Seminar in General Biology
Elective Courses (19-24 hours)
Choose one of the following:
BIOL 4150- Plant Physiology
BIOL 4200- Mammalian Physiology
BIOL 4210- Comparative Physiology
Choose one of the following:
BIOL 3470- Environmental Restoration
BIOL 3500- Salt Marsh Ecology
BIOL 4320- Environmental Microbiology
BIOL 4460- Phytoplankton Ecology
BIOL 4750- Tropical Field Biology
Choose two of the following:
BIOL 3520- Medical Microbiology
BIOL 4000- Cancer Biology
BIOL 4010- Evolution
BIOL 4100- Cell and Molecular Biology Laboratory
BIOL 4220- Endocrinology
BIOL 4310- Applied Microbiology
BIOL 4400- Virology
BIOL 4500- Bioinformatics and Biotechnology
BIOL 4510- Molecular Development
BIOL 4650- Immunology
Choose two of the following:
BIOL 3020- Vertebrate Zoology
BIOL 3150- Horticulture
BIOL 3200- Plant Taxonomy and Identification of Flowering Plants
BIOL 3300- Entomology
BIOL 3310- Invertebrate Zoology
BIOL 3750- Natural History of Vertebrate Animals
BIOL 3770- Developmental and Comparative Anatomy of the Vertebrates
BIOL 3800- Mycology
BIOL 3920- Parasitology
BIOL 4550- Biology of Marine Organisms
BIOL 4600- Ichthyology

C. Related Field Course .................................................................. 1 hour
CHEM 2101L- Organic Chemistry I Lab

D. Electives ................................................................................... 19-24 hours
Select free electives to bring total of 3000+ course work to at least 39 hours.
Track II: Marine Biology

B. Major Field Courses ................................................................. 35-36 hours

Required Courses (20 hours)
BIOL 2020- Survey of the Kingdoms: Planes and Fungi
BIOL 3000- Cell Biology
BIOL 3700- Genetics
BIOL 4700- General Ecology
BIOL 4550- Biology of Marine Organisms
BIOL 4802- Senior Seminar in Marine Biology

Elective Courses (15-16 hours)
Choose one of the following:
BIOL 4150- Plant Physiology
BIOL 4200- Mammalian Physiology
BIOL 4210- Comparative Physiology

Choose one of the following:
BIOL 3020- Vertebrate Zoology
BIOL 3310- Invertebrate Zoology
BIOL 3750- Natural History of Vertebrate Animals

Choose two of the following:
BIOL 4320- Environmental Microbiology
BIOL 3200- Plant Taxonomy and Identification of Flowering Plants
BIOL 4460- Phytoplankton Ecology
BIOL 4750- Tropical Field Biology
BIOL 4600- Ichthyology

C. Related Field Courses ................................................................. 9 hours
CHEM 2101L- Organic Chemistry I Lab
PHYS 1111K- Introductory Physics I or PHYS 2211K- Principles of Physics I
MATH 1161- Calculus I (If taken in core area A, then substitute with either MATH 2072;
PHYS 1112K or PHYS 2212K)

D. Electives ......................................................................................... 15-16 hours
Select free electives to bring total of 3000+ course work to at least 39 hours.

Track II: Cell and Molecular Biology

B. Major Field Courses ................................................................. 26-29 hours

Required Courses (13 hours)
BIOL 3000- Cell Biology
BIOL 3700- Genetics
BIOL 4100- Cell and Molecular Biology Laboratory
BIOL 4500- Bioinformatics and Biotechnology
BIOL 4803- Senior Seminar in Cell and Molecular Biology

Elective Courses (13-16 hours)
Choose one of the following:
BIOL 4150- Plant Physiology
BIOL 4200- Mammalian Physiology
BIOL 4210- Comparative Physiology

Choose one of the following:
BIOL 3020- Vertebrate Zoology
BIOL 3300- Entomology
BIOL 3310- Invertebrate Zoology
BIOL 3750- Natural History of Vertebrate Animals
BIOL 3800- Mycology
BIOL 3920- Parasitology

Choose two of the following:
BIOL 3520- Medical Microbiology
BIOL 4000- Cancer Biology
BIOL 4010- Evolution
BIOL 4220- Endocrinology
BIOL 4310- Applied Microbiology
BIOL 4320- Environmental Microbiology
BIOL 4400- Virology
BIOL 4510- Molecular Development
BIOL 4650 - Immunology
C. Related Field Courses .......................................................... 16 hours
CHEM 2101L - Organic Chemistry I Lab
CHEM 2102/2102L - Organic Chemistry II
CHEM 3801 - Biochemistry
PHYS 1111K - Introductory Physics I or PHYS 2211K - Principles of Physics I
PHYS 1112K - Introductory Physics II or PHYS 2212K - Principles of Physics II
D. Electives .............................................................................. 15-18 hours
Select free electives to bring total of 3000+ course work to at least 39 hours.
Total Semester Hours 123 hours
E. Regents' Test and Exit Exam

Effective Term: Fall 2012

5. Create the following course for addition to Core Area D.1 (see Attachment 3)
BIOL 1103 Concepts of Biology 3-3-4
Prerequisite: Eligible for ENGL 1101
Description: May include topics such as evolution, ecology and the environment, genetics and heredity, diversity of life, cells and cellular energy, biomolecules, and the scientific process. (Credit in this non-majors course may not be applied to the Area F requirement in biology. Course not intended for science majors or clinical health majors).
Rationale: Currently the university curriculum offers BIOL 1107 'Principles of Biology I,' a course that is open to both biology majors and non-majors. Due to the mixed population of students, BIOL 1107 covers biological topics in a generalized way. This curriculum is hindering the biology major, a student who requires biological information that is more focused, and detailed. The Department of Biology at Armstrong has recently decided to create a new lab course, strictly for non-majors, while maintaining BIOL 1107 for biology majors and students interested in the pre-health sciences. The new course, BIOL 1103 'Concepts of Biology,' will focus on current, applicable topics in biology that will contribute to a well-rounded education for non-majors. In turn, BIOL 1103 will allow the BIOL 1107 curriculum to become more specialized to enhance the experience of the biology major and to help prepare the major for more rigorous, upper level courses. BIOL 1103 is currently taught at the University of Georgia, Middle Georgia State, Savannah State, and other Georgia Colleges and Universities. Offering BIOL 1103 at Armstrong will allow students an easy transfer to or from other schools. We propose that BIOL 1103 be taught fall, spring, and summer semesters by various faculty of the Department of Biology, beginning Fall, 2012. We propose that this course be added to Core Area D, Option I Non-Science Majors. See syllabus and attached BOR form.

Effective Term: Subject to Board of Regents Approval

CURCAT:
Major Department: Biology
Can Course be repeated for additional credit? No
Maximum Number of Credit Hours: 4
Grading Mode: Normal
Instruction Type: Lecture and Laboratory
Course Equivalent: None
6. Modify Core Area D.1, D.2, and D.3 to include BIOL 1103 in Option I.

Rationale: To add new course.

Effective Term: Subject to Board of Regents Approval of Course

B. Chemistry & Physics

Item 1 from the Department of Chemistry and Physics was discussed and approved by the committee. It is being submitted to the Faculty Senate for approval.

1. Create the following course:

   CHEM 2000  Fundamentals of Organic Chemistry and Biochemistry  3-0-3
   Prerequisite: CHEM 1212 (minimum grade of C)

   Fundamentals of organic chemistry applied to the major biochemical pathways. Course designed for allied health majors. (Credit may not be applied to the major field requirement in chemistry.)

   Rationale: Expanding knowledge and applications in biochemistry requires that a variety of majors become conversant in the field. The biochemistry courses currently taught in the Department of Chemistry and Physics are comprehensive and intended for chemistry majors having the Organic Chemistry I and II sequence (CHEM 2101 and 2102) as pre-requisites. This course represents a complement to the existing course structure providing the fundamentals of organic chemistry applied to the major biochemical pathways.

   Effective Term: Fall 2012

   CURCAT:
   Major Department: Chemistry & Physics
   Can course be repeated for additional credit? No
   Maximum number of credit hours: 3
   Grading Mode: Normal
   Instruction Type: Lecture
   Course equivalent: None

C. Computer Science and Information Technology (no items)

D. Engineering Studies (no items)

E. Mathematics

Items 1-4 from the Department of Mathematics were discussed and approved by the committee. They are being submitted to the Faculty Senate for approval.
1. Modify the Program of Study for the Minor in Mathematics

Minors
Mathematics ................................................................. 16-17 hours
MATH 2072 - Calculus II
Either MATH 2083 - Calculus III or MATH 2160 - Linear Algebra
Nine additional semester hours chosen from MATH 2160 and mathematics or statistics courses numbered 3000 or higher (excluding MATH 3201, 3750, 3911, 3912, 3932, 4961, 4962, 4963, 4750, 5412U and 5911U). STAT courses cannot be used simultaneously for a mathematics and statistics minor.

Rationale: This change will allow the minor to comply with the current BOR requirements.

Effective Term: Fall 2012

2. Modify the following course:
MATH 3480 OPTIMIZATION AND GRAPH THEORY
Prerequisite: MATH 2160
Description: Network analysis topics including shortest path, maximum flow, min-cut/max-flow theorem, minimum cost networks, minimum spanning trees, matching and coloring problems; Additional topics from operations research including nonlinear, integer-programming; Operations research topics including nonlinear programming, network analysis, Markov chains, game theory, and inventory theory.

Rationale: The modification of this course was needed as the breadth of topics possible in Optimization justifies its own course, as well as the breadth of topics possible in Graph Theory. Also, the topics covered in Optimization can now be covered in more depth.

Effective Term: Fall 2012

3. Create the following course:
MATH 4340 Graph Theory
Prerequisite: MATH 3000
Description: Graphs and digraphs, trees, connectivity, matchings, paths, cycles, bipartite graphs, Euler's formula, planar graphs, and graph coloring.

Rationale: The creation of this course picks up the topics dropped from MATH 3480 and allows more topics in Graph Theory to be expanded upon. Also, the prerequisite of MATH 3000 will allow a deeper exploration of topics covered in Graph Theory.

Effective Term: Fall 2012

CURCAT:
Major Department: Mathematics
Can Course be repeated for additional credit? No
Maximum Number of Credit Hours: 3
4. Change in Program of Study for Applied Mathematics with Operations Research Concentration

C. Related Field Courses ..................................................... 21-27 hours

CSCI 1302 - Advanced Programming Principles

Complete the prescribed courses in one of the following concentration areas and, if needed, additional courses to complete the requirement of at least 39 semester hours of upper-division courses. These additional courses may be chosen from mathematics, the concentration area, ENGL 3720, or HIST 5640.

Actuarial science:
- ECON 2105 or ECON 2106
- STAT 3222
- MATH 3251 or 3460
- MATH 4200
- Two courses selected from:
  - ECON 3050, 3060, 3500, 3600, 3700, or 5300U

Biology: minor in biology
Chemistry: minor in chemistry
Computer science: minor in computer science
Economics: minor in economics
Engineering studies: minor in engineering studies

Operations research:
- Complete 6 of the 7 courses:
  - STAT 3222 - Probability and Statistics Applications II
  - MATH 3251 - Combinatorics
  - MATH 3460 - Introduction to Operations Research
  - MATH 3480 - Optimization and Graph Theory
  - MATH 4340 - Graph Theory
  - MATH 4400 - Operations Research Seminar
  - MATH 4610 - Numerical Analysis

Rationale: MATH 4340 is an acceptable course for this concentration area.

Effective Term: Fall 2012

F. Psychology (no items)

OTHER BUSINESS

A. Blanket Updates. The committee discussed the viability of blanket updates to the catalog when course numbers, titles, and/or pre-/co-requisites were changed. One potential problem is that affected departments may not realize the changes and would fail to update their advisement...
sheets. Possible procedures were discussed. Ms. Panhorst was asked to prepare a list of the number of catalog occurrences of each course where the number, title, and/or pre-/co-requisites were changed, for further consideration.

B. Methods of Delivery of Programs

This item was deferred until next month due to lack of time. However, Dr. Kraft did give a brief summary.

When there are new methods of delivery of programs, such as moving from classroom to online delivery, those large changes do come through the curricular process. This is in reference to changes in delivery of entire programs, not of individual courses. Since these changes of program will come through the UCC, it needs to be determined what questions need to be addressed and what points are important when assessing proposed change of program delivery. Those who would propose such changes need to know what information the committee needs. A start would be for the committee to compile a list of questions and concerns to be addressed.

Dr. Kraft also mentioned that the USG has specific definitions for individual courses that are dependent on what percentage of the course is spent in a physical classroom and what percentage is delivered online. The course definitions are used to define the programs. Dr. Kraft said he would send a link for the definitions to Dr. McGrath.

ADJOURNMENT. The meeting was adjourned at 5:02 p.m.

Respectfully submitted,

Phyllis L. Panhorst
Catalog Editor and Secretary to the Committee
