Institutional Review Board Minutes
November 8, 2012
Burnett Hall Board Room

- Members Present: John Kraft, Delana Nivens, Elizabeth Desnoyers-Colas, Jane Blackwell, Sean Eastman, Greg Wimer, John Hobe
- Members not present: Sara Plaspohl, John Markham
- Guests: Andy Bosak, Michael Nelson, Sabrina Madsen, Layley Ralton

- Call to order 3:00

- Review of IRB #1061 – Michael Nelson & Andy Bosak
  - Mandatory full review due to high expenditure of energy
  - The board members asked the researchers questions to clarify procedural items.
  - The board voted to approve the study pending adequate responses to the following items.
    - Outline which HSQ responses will lead to exclusion.
    - Address the potential for medicine and heart rate interaction. One solution is to exclude all people on any medication, but another is to outline a decision tree where:
      - All drugs known to interact with heart lead to exclusion
      - Any unknown drugs will be verified with a pharmacist and lead to exclusion accordingly.

- Review of IRB #1062 – Sabrina Madsen & Andy Bosak
  - Mandatory full review due to high expenditure of energy
  - The board members’ asked questions about the screening procedures and research protocol.
  - The board voted to approve the study.

- Review of IRB #1063 – Kayley Ralton & Andy Bosak
  - Mandatory full review due to high expenditure of energy
  - The board members asked questions about the composition of the participants and clarification of the research procedure.
  - The board voted to approve the study.

- The board adjourned at approximately 4:15 pm.

Addendum to minutes: Michael Nelson submitted the required documents where he indicated how the HSQ would be used as a screening instrument and that he would address the potential for a medication-heart interaction by using a decision tree where all drugs known to interact with heart rate would lead to exclusion and any unknown drugs would be be verified with a pharmacist.
