Purchasing Books with Follett Discover Inside of the Armstrong eClassroom

There are several places that students may find the Follett Discover link.

The main homepage in the Campus Resources widget.

Within any of the courses in the Getting Started for Students widget.
The professor may also have a link within their content area.

Any one of these links will take students to where they can see the courses that they are registered for in that semester.

If the student has courses these will be visible below this area. If a student would like to purchase books for a different semester, they may change it here. Since the student has logged into the Learning Management System (Armstrong eClassroom – D2L) this link will automatically acknowledge who they are and what courses the student is registered for.
This is how the courses will be displayed.

Click on the Purchase link to begin. You will be asked if you have a Follett account.

- If the answer is Yes, the student will be taken to a log in screen.
- If the answer is No, the student will be taken to an area to create one.
- Or you may continue as a guest.
If there is more than one book for a course, you will be able to select one or all of those books on this screen.
There will be an area to choose the condition of the book.
Now choose how to have the book(s) delivered.

There are options for the Campus Bookstore or the Liberty Center.
If the decision is to pick up the book(s) at the Bookstore or the Liberty Center, contact information will then be needed. This way the Bookstore may contact the student to let them know that the order is ready for pickup.

Add one or all of the books to the Cart. After you have made the choices of the books that are needed for the semester, go to your cart. Then, proceed to a secure checkout area. At the top, there is an option to use your Financial Aid, Scholarship, Purchase with a gift card, or Pirate Card. If these are not selected, begin filling in the payment information.

***Notice that much of this information is required to complete the purchase.
Once all the options have been made this screen will be displayed:
