Armstrong eClassroom: Resetting an Attempt on a Quiz

Go into the Quiz.

Select the drop down arrow next to that quiz.

Select Grade.

Find the student that you wish to reset the attempt for.

Place a check mark in the box next to Attempt 1, this is likely the only attempt that they will have.

Then click on the trash can at the top of the list of students. This will delete the attempt. If the quiz is still available, then the student can retake the quiz. Otherwise you will need to set up Special Access for the student to have access to the quiz.
