Armstrong eClassroom: Resetting an Attempt on a Quiz

From the list of quizzes, select the quiz that needs to have the attempt reset for the student.

Select the drop down arrow next to that quiz.

Select Grade.

After selecting Grade, there will be a list of the students in that course.

To find the student that has not submitted a quiz, select the dropdown menu under the Restrict to area. Change this to Users with attempts in progress.

Click on the magnifying glass just above that area next to the Hide Search Options.
Locate the student that you wish to reset the attempt for.

Place a check mark in the box next to Attempt 1.

Then click on the trash can at the top or bottom of the list of students.
