INTRODUCTION

This handbook was prepared by the faculty of the Graduate Program in Nursing and is designed to provide you with information and other materials necessary to your success and progression in the graduate nursing program. Use your handbook in conjunction with the Armstrong State University Graduate Catalog. Keep it in a place where you can refer to it regularly while you are a student in the program. Please feel free to contact me with questions or concerns that you may have. I wish you every success in your graduate nursing studies!

Anita Nivens, PhD, RN, FNP-BC
Graduate Nursing Program Coordinator

I. ACADEMIC POLICIES & INFORMATION

**Armstrong HONOR CODE:**

The Armstrong State University Honor Code protects the integrity of the grading system, making each grade that you receive, and your degree itself, a valuable achievement. Each student is required to abide by the rules of the Honor Code. Please refer to the current Graduate Catalog for specific information [www.armstrong.edu/images/academic_affairs/current_graduate_catalog.pdf](http://www.armstrong.edu/images/academic_affairs/current_graduate_catalog.pdf)

**GRADING:**

The following grading scale has been adopted by the Graduate Nursing Program:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>90-100</td>
</tr>
<tr>
<td>B</td>
<td>80-89</td>
</tr>
<tr>
<td>C</td>
<td>70-79</td>
</tr>
<tr>
<td>D</td>
<td>60-69</td>
</tr>
<tr>
<td>F</td>
<td>below 60</td>
</tr>
</tbody>
</table>

(Approved: Graduate Nursing Program October 25, 1995)

**GRADE APPEAL PROCEDURE:**

A student who contests a grade has the right to a grade appeal. Please refer to the Graduate Catalog for specific information and appropriate time lines. It is the sole responsibility of the student to follow the correct procedure to appeal a grade.

**GRADUATION:**

Application for graduation must be completed two semesters BEFORE graduation. Please refer to the Graduate Catalog for specific information and appropriate time lines. Students are required to pay graduation fees as determined by Armstrong.

**PROGRAM COMPLETION REQUIREMENTS:**

Students must complete the graduate nursing program within seven consecutive years from the date of their initial admission to the nursing program. Students who do not complete the program within this limit must apply for re-admission, meet current criteria for admission, and have their previous credits evaluated. Students who are granted re-admission must meet course requirements in effect at the time of evaluation.

**REQUEST FOR LEAVE OF ABSENCE:**

In compliance with the Armstrong State University Graduate Program policies, the Master of Science in Nursing Program must be completed in 7 years. If a student’s progression is
interrupted for any reason, it is the student’s responsibility to complete a Request for Leave of Absence, located on the Department of Nursing website, as well as to meet with the Graduate Program Coordinator. Because of limited space in the advanced clinical courses, any alteration in progression may lengthen the student’s program. Students may be readmitted on a space available basis. Following an approved leave of absence, the student in good standing (GPA ≥3.0) may submit a request for re-admission to the Graduate Nursing Program Admissions Committee with the understanding that selected courses, determined by the Committee, may need to be repeated.

**ACADEMIC PROBATION/PROGRAM DISMISSAL:**

Consistent with Graduate Studies policies, any student who earns a grade of C will be placed on academic probation. Students who earn a C in any required nursing course should meet with their academic advisor (and other appropriate professors) to develop a plan to enhance future success. A second C, D or F in any course in the program of study will result in academic dismissal. Repeating required courses for a higher grade will not be allowed to substitute for the C grade.

**RE-ADMISSION PROCEDURES:**

Student records will be maintained in the Graduate Nursing Program Office for two consecutive semesters. Following this period of time files become inactive; students must apply for readmission to Armstrong on the Application for Admission form provided by Graduate Studies. Please refer to the Armstrong Graduate Catalog for specific procedures.

**REGISTRATION HOLD:**

Students are responsible for submitting all documents required for program admission and progression in the Graduate Nursing Program. This includes all annual updates including but not limited to health insurance / waiver, liability insurance, CPR certification, health/physical with TB screening, and HIPPA statements. Students will have a HOLD placed on their registration status and will not be permitted to register until the necessary documents are provided to the Graduate Nursing Program Office. Students may also be administratively withdrawn during the semester in the event expired items are not updated.

**COMPLAINT POLICY**

**Definition:** A complaint is defined as any student concern related to a departmental or program policy, faculty member, clinical instructor, class activity, clinical site or anything that affects the teaching/learning environment.

**Purpose:** The student complaint process has as its aim the resolution of concerns via a professional problem solving approach. The outcome of the process will be directed toward the on-going improvement of the teaching/learning environment.
Formal Complaint Process:

1. It is expected that prior to initiation of a complaint that the student has attempted to resolve the problem with the appropriate faculty member and/or Department Head.
2. In the event that the complaint is not resolved, the student should initiate in writing the formal student complaint form located in the Department of Nursing office.
3. The form is submitted with appropriate sections completed by the Head of the Department of Nursing.
4. The student will participate in meetings to be scheduled by the Head of the Department of Nursing as needed to include both student and faculty until satisfactory resolution has occurred.
5. The student may choose to withdraw the complaint at any time during the resolution process.
6. The Student Complaint Form, Complaint Summary Form, and Resolution will be kept in a secure file in the Department of Nursing for five years.
7. Formal complaints with reports of resolution will be reviewed as part of ongoing program improvement.

NP TRACK ADMISSION POLICIES:

Applicants to NP tracks:
   a. Must be an MSN student in good standing.
   b. Apply to the intended track the Spring semester before NP clinical courses begin in Summer.
   c. Must submit a letter of intent with a work history form.
   d. Must have a minimum of 1 year of critical care experience as an RN within the last 3 years for selection into the Adult-Gero Acute Care NP track.
   e. Advanced Pharmacology course must be no older than 5 years.
   f. Students who are not admitted to the preferred NP track will be given the option to enter other tracks for which they are eligible on a space available basis or move to a waiting/preference list for the following Spring application cycle.

NP track admission decisions will be guided by scores on the Track Admission Rubric.

With regard to Post-Masters Certificate applicants, the following stipulations apply:

   g. All applicants will have a gap analysis to determine needed coursework and clinical hours.
   h. APRN applicants must be currently certified and actively practicing as an advanced practice nurse.
i. Applicants who are not APRNs will be required to successfully complete courses identified in the gap analysis.

j. Advanced Pharmacology course must be no older than 5 years.

**STANDARDS OF PROGRESSION:**

Students are responsible for meeting all Standards of Progression and Graduation as outlined in the Armstrong Graduate Catalog.

MSN Student Handbook, page 8
WITHDRAWALS/INCOMPLETES:

Students who are unable to complete a semester’s work due to non-academic extenuating circumstances should refer to the Armstrong Graduate Catalog for specific policies and procedures.

II. ACCREDITATION STATEMENT

The Armstrong Department of Nursing is accredited by the Commission on Collegiate Nursing Education (CCNE). Accreditation is an indication of public approbation, attesting to the quality of the educational program and the continued commitment of the sponsoring institution to support the program. For further information about the accreditation of the program, please contact the Commission on Collegiate Nursing Education at the following address:

Commission on Collegiate Nursing Education
One Dupont Circle, NW, Suite 530
Washington, DC 20036
(202) 463-6930

III. ANNUAL UPDATES

The following information must be updated annually:

1. Physical examination, PPD or Chest X-Ray with statement indicating when next X-Ray is due
2. CPR Certification
3. Liability Insurance
4. Current unrestricted GA license as well as other states in which clinical practice occurs
5. Proof of Health Insurance (Armstrong mandatory Health Insurance or Waiver)
6. HIPPA/Confidentiality Statement
7. Immunizations (flu, etc…)
8. Others as required by clinical facilities including background checks and drug screenings

It is the student’s responsibility to provide a copy of the above information to the Graduate Administrative Assistant to be stored in the student’s file.

IV. DON OFFICE INFORMATION

Department of Nursing Office is located in Ashmore Hall Room 216.
Graduate Nursing Office is located in Ashmore Hall Room 265.
Office hours: Monday - Friday 8:15 a.m. - 5:00 p.m.

Office Phone #: Graduate Admin Asst: Molly Peterson (912) 344-2553
Additional evening and weekend hours may be arranged through faculty.

V. EDUCATIONAL OBJECTIVES FOR THE MASTER OF SCIENCE IN NURSING PROGRAM

Upon completion of the master’s degree, the graduate will be able to function as a nurse specialist. The following are Graduate Program objectives:

1. Integrate scientific findings from nursing, and other disciplines as the basis for advanced practice.
2. Utilize leadership and ethical decision making with inter-professional teams to improve quality and safety.
3. Apply evidence based knowledge to resolve problems and effect change.
4. Incorporate technology and informatics to deliver quality care.
5. Advocate to influence health policy development and improve healthcare systems.
6. Collaborate with inter-professional teams to improve patient and population health outcomes.
7. Integrate health promotion and disease prevention in planning the care of individuals, families, and communities.
8. Integrate advanced practice nursing interventions to influence outcomes for individuals, populations, and systems.

VI. OUTCOME MEASUREMENT & EVALUATION ANALYSIS

**Critical Thinking**

<table>
<thead>
<tr>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Critical Thinking:</strong> A creative skill that is practiced and refined over time. It is the intellectually disciplined process of actively and skillfully conceptualizing, applying, analyzing, synthesizing, and/or evaluating information that has been gathered from, or generated by, observation, experience, reflection, reasoning, or communication with others.</td>
</tr>
</tbody>
</table>

| **Critical Thinking Assessment Tool:** This two part instrument measures a total of ten criteria which collectively define the cognitive process of critical thinking. The student's ability to think critically is measured by the assessment of written evidence. |

The ten criteria are rated on a four-step (0 to 3) scale, with a possible range of 0-30. The standard score range is identified as 0-20. The Critical Indicator, representing an 85% achievement score, is 17.

<table>
<thead>
<tr>
<th>Congruence with Philosophy</th>
</tr>
</thead>
<tbody>
<tr>
<td>Professional nurses utilize critical thinking skills for self-directed judgments and act...</td>
</tr>
</tbody>
</table>
independently within the framework of their nurse practice act.

### Graduate Nursing Program

<table>
<thead>
<tr>
<th>Evaluation Measure</th>
<th>Rationale</th>
</tr>
</thead>
</table>
| **Adult-Gerontological Primary Care Nurse Practitioner Track:**  
NURS 7044 Case Study | The Adult Nurse Practitioner case study allows students to demonstrate their ability to develop and analyze differential diagnoses for presenting client symptoms. Clinical decision-making in the management of complex symptomatology provides the student with the foundation for the selection of appropriate diagnostic and therapeutic interventions. |
| **Advanced Practice Nursing Track:**  
NURS 7096: | The ANCC certification exam for NPs measures student ability to collect complex data, analyze these data and develop appropriate action plans. National certification as a nurse practitioner is therefore accepted as student achievement of this outcome. |
| **Adult-Gerontological Acute Care Nurse Practitioner Track:**  
NURS 7844: | The case study for the Adult–Gerontological Acute Care Nurse Practitioner track stimulates development and analysis of differential diagnoses of symptoms in an acutely ill adult. Clinical decision-making in the management of complex symptomatology provides the student with the foundation for the selection of appropriate diagnostic and therapeutic interventions. |

---

**Communication: Written and Oral**

### Definition

**Communication:** A transactive process which effectively imparts, confers or transmits thoughts, feelings, or information through verbal and nonverbal gestures with another person or persons.

### Congruence with Philosophy

Professional nurses utilize effective communication skills to develop partnerships with clients and the interdisciplinary health team for the design, implementation, and evaluation of health strategies for the individual, family, aggregate, or population.

### Measurement Instruments

In developing procedures for measurement of communication skills, the Department of Nursing elected to separate the measurement of oral and written communication. This decision resulted in the generation of two communication instruments: oral and written. Together, these two instruments present a complete assessment of the student’s proficiency in communication.

**Oral Communication Assessment Tool:**
This instrument measures a total of five criteria, one of which has six parts. These ten criteria collectively define the behaviors and skills necessary for the performance of expected oral
communication.

The ten criteria are rated on a four-step (0 to 3) scale, with a possible range of 0-30. The standard score range is identified as 0-20. The Critical Indicator, representing an 85% achievement score, is 17.

**Written Communication Assessment Tool:**
This instrument measures a total of six criteria. These six criteria collectively define the student's ability to communicate in writing.

The six criteria are rated on a four-step (0 to 3) scale, with a possible range of 0-18. The standard score range is identified as 0-12. The Critical Indicator, representing an 85% achievement score, is 10.

---

**Graduate Nursing Program**

<table>
<thead>
<tr>
<th>Evaluation Measure</th>
<th>Rationale</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>All MSN Tracks:</strong> Project or Thesis</td>
<td>The thesis/project experiences allow the student to communicate verbally and in writing the integration and synthesis of the knowledge accumulated in the selected program of study. Evaluation of the student’s oral and written abilities provides clear evidence of his/her achievement of the expected levels of communication.</td>
</tr>
<tr>
<td>Post-Master’s Certificates:</td>
<td>Post-Master’s Certificates are exempted as these students have demonstrated prior proficiency.</td>
</tr>
</tbody>
</table>

---

**Therapeutic Nursing Interventions:**

**Definition**

*Therapeutic nursing interventions:* Are based on an ethic of human care that is contextually, socially, culturally, and ethnically relevant to the recipient. At the graduate level, strategies that constructively and positively influence the quality of health of individuals, families, groups, communities, and health care systems are evaluated.

**Congruence with Philosophy**

Professional nursing practice focuses upon therapeutic nursing interventions to provide health promotion, health maintenance, illness prevention, and health restoration. Professional nursing roles include practice, leadership, educator, advocate, researcher, consultant, and change agent.

**Measurement Instruments**

*Therapeutic Nursing Interventions Tool:* This instrument measures a total of five criteria, two of which has multiple parts. A total of nine criteria collectively define the behaviors and skills which have been designated as measurement of therapeutic nursing interventions.
The ten criteria are rated on a four-step (0 to 3) scale, with a possible range of 0-27. The standard score range is identified as 0-18. The Critical Indicator, representing an 85% achievement score, is 15.

**VII. NURSING FACULTY’S MISSION, VISION AND VALUES (2014)**

**The Department of Nursing Mission Statement:** The Armstrong Department of Nursing provides undergraduate and graduate student-centered education utilizing evidence based practice, supported by faculty expertise, research and community service.

**The Department of Nursing Vision Statement:** The Armstrong Department of Nursing strives to be a center of excellence for professional nursing education that prepares leaders who positively impact the profession and the health of the diverse communities they serve.

**The Department of Nursing Values:**
The nursing faculty embrace these core values:

**Education:** The faculty value:
- nursing education that builds upon a strong scientific, theoretical, and liberal arts base.
- student focused education that is transformative, experiential, and rigorous leading to competent caring professional nurses.
- the teaching-learning process which prepares students to utilize informatics, and evidence based practice in the provision of patient centered care in a variety of health care settings.
- the acquisition of knowledge, skills, and attitudes that promote a change in behavior.
- interprofessional communication, and collaboration.
- baccalaureate nursing education as the entry into professional practice, and the foundation for graduate nursing education.

**Environment:** The faculty value:
- a diverse global environment that encompasses the health of the individual, family, and community.

**Health:** The faculty value:
- health as a state of well-being that is dynamic and interactive with the environment.

**Person:** The faculty value:
- the uniqueness and diversity of individuals, family, and the community.

**Professional Nursing Practice:** The faculty value:
- the knowledge and application of professional nursing standards.
● graduate nursing education that develops skills, knowledge and competencies to participate in advanced nursing practice.

Scholarship: The faculty value:
● scientific discovery in the application of evidence-based practice.
● A broad definition of scholarship that includes discovery, practice and teaching.

Service
The faculty value:
● opportunities to serve the community through leadership, professional practice, consultation and collaboration.

VIII. FINANCIAL ASSISTANCE

ARMSTRONG FINANCIAL AID OFFICE

Graduate students seeking financial aid must contact the Armstrong Financial Aid Office directly at 912-344-3266 for guidelines.

NATIONAL HEALTH SERVICE CORPS LOAN REPAYMENT

The Federally funded program provides support for eligible nurse practitioner graduates. Contact the Graduate Nursing Coordinator for program information.

GRADUATE ASSISTANTSHIP

Graduate Assistantships are available. Students must be accepted to a graduate degree program at Armstrong State University, maintain at least an overall 3.0 GPA, be enrolled in a minimum of 6 credit hours and no more than 12 credit hours per semester, and make satisfactory progress toward a degree. Students enrolled on online graduate degree programs are not eligible. Non-degree seeking or transient students are not eligible. Students must be enrolled in a minimum of 6 credit hours. Contact Enrollment Services for specific information at (912) 344-2865.

IX. GENERAL STUDENT POLICIES

ARMSTRONG DISABILITY SERVICES: Students accepted to Armstrong State University who are requesting accommodations should contact the Office of Disability Services. The student must provide documentation of the disability from a qualified professional and the documentation must support the need for the accommodation being requested. The Board of Regents has established criteria in regards to documentation of learning disabilities and attention deficit disorder. These criteria are available in the Office of Disability Services.

ADVISEMENT: Graduate nursing students are assigned a faculty advisor. Students are expected to schedule appointments with assigned advisors as needed. The program coordinator and graduate faculty are also available during posted office hours for consultation and assistance.
**BOOKS:** Required textbooks may be purchased through the Armstrong Bookstore.

**CELL PHONE/ELECTRONIC DEVICES:** Use of cell phones or communication devices during class or testing is prohibited. Any device must be turned off and out of sight. Failure to comply may result in the following actions:

1. During class – student will be dismissed and may not return to that class session.
2. During testing – the test will be forfeited. The test will be picked up and the student will receive a zero for the test (and could result in Honor Court proceedings. Refer to Armstrong Catalog Honor Code and Code of Conduct.

**CHILDREN ON CAMPUS:** Armstrong policy prohibits the presence of children during class activities. Children may not be left unattended in any Armstrong building campus or on Armstrong grounds.

**CLASSROOM ATTENDANCE:** Class attendance is expected of every student. Students are responsible for content discussed or announced in class. Students are also responsible for completing assignments on time. See each specific course syllabus for individual course requirements.

**CONFIDENTIALITY STATEMENT:** Each student must annually review and sign the Confidentiality Statement, found under D2L, Graduate Nursing Students Forms, HIPAA.

**CLINICAL:** Students must complete the required clinical hours for the chosen track. Absences from clinical must be rescheduled. It is the student’s responsibility to reschedule clinical with faculty and/or the preceptor regarding missed clinical hours. In order to meet clinical objectives and achieve the program terminal objectives, students must be eligible and acceptable for clinical experiences in all selected clinical agencies. Clinical agencies have the right to refuse admittance of students based on previous clinical behaviors or performance. Students who may be ineligible to complete required clinical expectations will be unable to satisfactorily complete course requirements.

Clinical work must be graded as “satisfactory” in each clinical course for progression. Clinical preceptors provide evaluative input, however the final clinical grade is the responsibility of the supervising faculty.

Clinical sites are approved by the supervising faculty based on the ability of the site to provide the student with encounters sufficient in number and variety so as to meet the specific course requirements. Students may suggest sites and preceptors for faculty consideration. Students may not be employed by the site during the hours counted as meeting the clinical course requirements. In order to adequately address the broad scope of adult advanced practice, students should anticipate experiences in a variety of clinical settings. Highly specialized practice sites may be used to supplement experiences as deemed appropriate by faculty. Travel to clinical sites is the responsibility of each student and may occur within a 100 mile radius of campus.
All clinical preceptors must be approved by the faculty and must not be relatives or family members of the student. Clinical preceptors must be certified, masters prepared advanced practice nurses with a minimum of one year experience. Nurse Practitioner students may also have a precepted experience with a licensed physician with credentials appropriate to course objectives. Preceptors should have a desire to teach as well as clinical time allocated to meet the demands of the experience.

Specific requirements are listed in each course syllabus and students are responsible for adhering to course policy.

Students are required to subscribe and document clinical paperwork and hours in an electronic system.

**INSTITUTIONAL CLINICAL CLEARANCE:** Clinical agencies utilized by the Department of Nursing may require criminal background checks and/or drug testing prior to a student’s acceptance into clinical work. Students who do not pass the criminal background check and/or drug test will be unable to attend clinical courses and therefore may be unable to complete their program of study. Any fee or cost associated with background checks and/or drug testing are the responsibility of the student. Be sure to work with your clinical supervisor and the graduate office as needed to ensure complete understanding of your clinical institution’s requirements and deadlines.

**DRESS CODE AND PERSONAL APPEARANCES:**

Dress Code: Students are expected to adhere to Departmental standards for professional dress. The dress code includes:

- **Lab Coat:** White lab coat with Armstrong name tag. The lab coat should be clean and neatly pressed.
- **Hair:** Neat and presents a well-groomed appearance. Hair shoulder-length or longer must be pulled back or put up. Hair accessories must be limited and neutral in color. Hair must be kept out of the face regardless of the length. Hair that is dyed must be a naturally occurring hair color. No faddish hairstyles are allowed.
- **Personal grooming:**
  - Nails should be neatly trimmed and should not extend beyond ¼ inch from the fingertip. Neither nail polish nor artificial nails are allowed
  - Make-up should not be excessive
  - Perfume/cologne/after shave is prohibited
  - Chewing gum is not allowed while in the clinical setting
- **Jewelry:**
  - Earrings: two pairs of small post earrings; no cartilage earrings are allowed
  - Body piercing in visible areas other than ears is not permitted. Tongue rings and studs are not permitted
  - Chains/necklaces: must not be visible
  - Arm and ankle bracelets: none
  - Rings: plain wedding bands only
- **Tattooing:**
Tattoos must be covered

- **Clothing:**
  - No scrubs or military uniforms may be worn
  - No capris or shorts may be worn
  - Be mindful of the “scoop” of your blouse or top; excessive cleavage is not appropriate
  - Only closed-toes shoes may be worn
  - No tennis shoes are allowed
  - Heel height must not exceed 2 inches

**DISMISSAL:** The Graduate Catalog outlines standard procedures for reporting and adjudication of honor and conduct offenses.

**EQUIPMENT:** It is expected that students will have equipment needed to provide client care in clinical settings. Clinical students must consult faculty advisor for required equipment prior to beginning clinical courses.

**HEALTH INSURANCE:** Students must show proof of personal health and hospital insurance by waiving the mandatory student health insurance each semester or by purchasing it and providing a copy of the card to the Graduate Nursing Office.

**LIABILITY INSURANCE:** All students must show proof of purchase of professional liability insurance. Students may choose to participate in an Armstrong student policy that may be purchased through the Bursar’s Office. This insurance policy may be purchased at the beginning of the Fall and Spring semesters of study. Information and sources of liability insurance may be obtained from the Graduate Nursing Program Office.

**NAME TAGS:** Name tags may be purchased from an approved vendor. See Graduate Nursing office for details.

**NEW STUDENT ADVISEMENT:** All students planning to enroll in a graduate nursing program must meet with the graduate program coordinator or assigned advisor. During this initial meeting the faculty and student will complete a Course Sequence Plan.

**PROFESSIONAL BEHAVIOR:**

- Students are expected to be prepared for all class and clinical assignments. They are expected to attend class and clinical on time.
- Students are adults and are responsible for their own behavior and learning. Faculty provide guidance and support for students having difficulty with nursing courses and for those students who seek assistance related to academic improvement.
- Students are expected to exhibit appropriate professional conduct in class, lab, and clinical situations.
- Civility in the classroom/laboratory will be maintained. Students causing disruption will be dismissed from the classroom/clinical environment.
• All students are expected to abide by the Armstrong State University Honor Code and Code of Conduct.

• Students are considered representatives of Armstrong when in classes conducted by guest lecturers or on field trips and, therefore, are expected to dress and behave with consideration for the image they project to the general community.

• Students must be qualified and acceptable to clinical agencies utilized in the program. Some clinical agencies require criminal background checks and random drug screening.

• Confidentiality of patient records and situations will be maintained at all times. No patient chart is to be copied by any technological process. Patient information is not to be removed from any health care agency. Students violating this code will be dismissed from the program.

• Students are responsible for maintaining patient privacy and dignity at all times. Professional decorum extends into many aspects of life. Courteous professional behavior toward faculty, peers, patient/client, staff and healthcare personnel is expected at all times. A first violation will cause the student to be reprimanded, reminded of the code of professional behavior, and the incident will be noted in the student’s record. The problem will be discussed with the student. Any further instances of unprofessional or unacceptable behavior will result in dismissal from the program.

SCHOLARLY WRITING: The Graduate Program in Nursing requires the use of the APA Manual, current edition for reference and formal paper documentation and style. The manual may be purchased in the bookstore.

SOCIAL MEDIA: Nursing students have an obligation to understand the nature, benefits, and consequences of participating in social networking of all types. Online content and behavior has the potential to either enhance or undermine not only the individual’s career, but also the nursing profession.

The following guidelines were adapted from ANA’s Principles for Social Networking*:

1. Nursing students must not transmit or place online individually identifiable patient information.

2. Nursing students must observe ethically prescribed professional patient–nurse boundaries.

3. Nursing student should understand that patients, colleagues, institutions, and employers may view postings.

4. Nursing students should take advantage of privacy settings and seek to separate personal and professional information online.

5. Nursing students should bring content that could harm a patient’s privacy, rights, or welfare to the attention of appropriate authorities.

Violation of the social media guidelines could result in dismissal from the nursing program.

SUBSTANCE ABUSE: The University policies on alcoholic beverages and drugs are described in the Student Conduct Code, which states in part, “The possession or use of drugs (without a valid medical prescription) controlled by the federal Government is prohibited.” In accordance
with these policies, the Department of Nursing has adopted the following policy for nursing students in clinical settings:

- If a student reports to clinical under the influence of drugs/alcohol, he/she will not be allowed to remain in the clinical setting that day and the matter will be referred to the Graduate Coordinator for further evaluation. If the student insists he/she is not impaired, he/she has the option of having a drug/alcohol screen done at his/her expense.
- The clinical instructor and the Graduate Coordinator will determine when the student can return to clinical if the student has been asked to leave the clinical setting due to being under the influence of drugs/alcohol.
- If deemed necessary by the Graduate Coordinator and the clinical instructor, the student will be referred for evaluation. Further action will depend on the recommendation of the counselor.
- If the counselor believes treatment is necessary, the student may have the option of returning to the nursing program upon completion of treatment. Drug/alcohol screening must be performed with negative results within one week of returning to clinical.
- If the student does not comply with the above recommendations, he/she will be referred to the Chair of the Department of Nursing for further actions.
- Based on recommendations of the counselor, the student may need to attend an aftercare program. If such a treatment plan is prescribed, the student must provide the Graduate Coordinator with documentation of attendance.

Detailed documentation of the incident(s) will be written by the clinical instructor and signed by the student indicating the student has read it. The documentation will be placed in the student’s file.

**TOBACCO USE:** Armstrong is a Tobacco-Free Campus.

**TRANSPORTATION:** Students must arrange for their own transportation to and from clinical agencies, and other program-related travel. Students must not provide transportation for clients.

**UNIVERSAL PRECAUTIONS:** Hepatitis, Human Immunodeficiency Virus (HIV) and other infections are significant and growing risks in the United States. Health care workers are especially at risk for developing these diseases due to exposure to needle sticks and splashed blood/body fluids. Hepatitis B and HIV+ status can be prevented through the consistent use of UNIVERSAL PRECAUTIONS. There is no known method to prevent the development of AIDS in HIV+ individuals. Therefore, it is mandatory that efforts be taken to prevent exposure to these diseases. Universal precautions must be followed by students and faculty in the clinical settings.

**X. COMPREHENSIVE EXAMINATION POLICY, PROCEDURE AND APPLICATION**

Comprehensive examinations in the major field of study are required for all candidates for the MSN. This examination tests students’ ability to synthesize and apply knowledge of nursing theory, research, roles and health policy.
ELIGIBILITY
Students applying to take the comprehensive examination must be enrolled in the final semester of course work. Students are eligible to take the comprehensive examination when the following criteria have been met:
A  Current or previous enrollment in NURS 7897 or 7899.
B  Current or previous enrollment in all major support and core courses required on the program of study.
C  Recommendation from the academic advisor.
D  An approved Program of Study form filed in the Department of Nursing.
E  A cumulative grade point average of 3.0 or higher.
F  No outstanding grades of Incomplete (I) in major courses.

EXAMINATION QUESTIONS
Examination questions will be developed by the faculty of the Graduate Program in Nursing. Students will be provided with faculty consultation to assist with preparation for the comprehensive examination.

CRITERIA FOR EVALUATION
Answers to questions are evaluated by the student’s mastery of the following:
1  Detailed scope of knowledge and comprehension of research, theory and policy related to advanced nursing practice concepts.
2  In-depth analysis, synthesis, application and evaluation of topic(s) of interest.
3  Logical, systematic progression of ideas.
4  Skilled expression/presentation of thoughts.

EXAMINATION RESULTS
Category 1:  Satisfactory: Student successfully meets all required criteria.

Category 2:  Remediation required: student is given a directed assignment that must be successfully completed by end of semester in order to meet progression requirements.

XI. ARMSTRONG STATE UNIVERSITY MISSION VISION AND VALUES

Our Mission
Armstrong is teaching-centered and student-focused, providing diverse learning experiences and professional programs grounded in the liberal arts.

Our Vision
Armstrong strives to be an academically selective institution of first choice, recognized nationally for undergraduate, graduate, and professional education.

Our Values
Armstrong embraces these core values:
● We value education that is student-focused, transformative, experiential and rigorous, leading to student success.
● We value balance among teaching, mentoring, and scholarship.
● We value an environment of mutual trust and collegiality that builds an inclusive community.
● We value transparency that fosters shared governance.
● We value diversity.
● We value ethical behavior and accountability that support high standards of performance.
● We value civic engagement through outreach and service.
● We value our relationship with Savannah, its unique geographic location, rich history, and abundant opportunities.

XII. PROFESSIONAL ORGANIZATIONS

Sigma Theta Tau
The purpose of the organization is to recognize and support leadership, scholarship and research in professional nursing. Students who meet eligibility requirements of no less than a 3.5 grade point average and have completed ¼ of their course work may be invited to join Sigma Theta Tau International Honor Society for Nursing. For additional information visit the Sigma Theta Tau website at http://www.nursingsociety.org.

Georgia Nurses Association
The professional organization for Registered Nurses is the American Nurses' Association (ANA). The Georgia Nurses Association (GNA) is a unit of ANA. Registered Nurse students are encouraged to become members of ANA/GNA.

Specialty Organizations:
A number of advanced practice groups are available locally including the Nurse Practitioner Council of Coastal Georgia and the Savannah Clinical Nurse Specialist group. Specialty track advisors post meeting notices and have contact information available. Graduate nursing students are welcome to attend meetings but should RSVP as requested for dinner events.

XIII. REQUIREMENTS FOR THE STRUCTURE OF ACCEPTABLE PAPERS

The following Guidelines for Acceptable Papers is intended to facilitate the development and formation of papers required in the graduate nursing courses. Graduate student papers must reflect an appropriate level and style of writing, in addition to format and appearance. It is expected that all papers will be word-processed. Papers unacceptable in style will not be read or graded. Students who may require additional assistance with style or writing format should consult with their course professor early in the semester for referral to the Armstrong Writing Center.

STYLE:
Grammar & Form:
- Correct sentence structure & punctuation (avoids comma splices, fused sentences, misused or omitted apostrophes & semicolons, split infinitives, etc.)
- Correct paragraph structure with clear organized ideas
- Transition sentences or linkages between thoughts
- Smooth flow
- Agreement of subject and verb
- Correct verb forms & verb endings
- Correct use of adverbs and adjectives
- Correct word spelling
- Pronouns are referenced correctly & agree

Documentation and Presentation:
- American Psychological Association, (current ed.), is required for all reference papers
- Adequate number of quality references
- Professional sources appropriate to subject and context
- Current publication appropriate to content; older references used as appropriate for historical or demonstrative purposes only
- Readable: Computer (word processor) generated with a minimum number of errors in style, format and typing

CONTENT:
- Clear and relevant introduction
- Clear and directed content focus
- Depth and breadth appropriate to topic
- Clearly identifies scope of paper
- Concise, clear, and cogent
- Conclusion or summary reflects important points of paper

TITLE PAGE:
The title page for all graduate student papers should utilize the current standard APA format.

XIV. STANDARDS OF PRACTICE

For the Graduate Program in Nursing, several sets of specialty standards were selected to serve as a basis and guide for advanced nursing practice knowledge and skill development.

Adult-Gerontological Clinical Nurse Specialist, Adult-Gerontological Primary Care Nurse Practitioner, Adult-Gerontological Acute Care Nurse Practitioner, and Advanced Practice Nursing:
Nursing: Scope and Standards of Practice (ANA, 2010)

Nursing’s Social Policy Statement:
The Essence of the Profession (ANA 2010)
Nursing Administration:
Scope and Standards for Nurse Administrators, 2nd Ed. (ANA, 2010).

XV. UNIVERSITY COMMITTEES AND ORGANIZATIONS

Armstrong State University offers a variety of activities to foster personal and professional growth. Students are encouraged to become involved in areas of interest. Activities available include inter-collegiate sports, religious activities, student government, honorary societies, special interest groups, and professional organizations. Involvement in departmental, college and graduate committees is encouraged.

Graduate nursing students are encouraged to serve on University, Department of Nursing Committees and the Graduate Nursing Program Committee. For appointment to Department Committees and/or the Graduate Nursing Program Committee, students should contact the Head of the Department of Nursing, or the Graduate Nursing Coordinator.

Graduate nursing students are also represented on the Graduate Student Coordinating Council.
